RIN 1625–AA00

Safety Zone; July Fireworks Display in Captain of the Port, Puget Sound AOR

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule; correction.

SUMMARY: The Coast Guard is correcting a temporary final rule that appeared in the **Federal Register** on June 15, 2010 (75 FR 33696). The temporary final rule established a temporary safety zone on the waters of Port Gardner Bay, Washington in support of the City of Everett Fourth of July fireworks display and this correction reflects the correct positioning of the display. The safety zone is necessary to protect the maritime public from dangers associated with the fireworks display and will do so by restricting vessels from congregating in close proximity to the fireworks discharge site during the display. Entry into, transit through or mooring within this safety zone is prohibited unless authorized by the Captain of the Port or Designated Representative.

DATES: This rule is effective from 5 p.m. on July 4, 2010 until 1 a.m. on July 5, 2010.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary rule, call or e-mail LTJG Ashley M. Wanzer, Sector Seattle Waterways Management, Coast Guard; telephone 206–217–6175, e-mail SectorSeattleWWM@uscg.mil.

SUPPLEMENTARY INFORMATION: In FR doc 2010–14294 appearing on page 33696 in the issue of Tuesday, June 15, 2010, the following corrections are made:

SUPPLEMENTARY INFORMATION:

I. Does this Action Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to those persons who are concerned about OMB approval for information collections required by EPA regulations. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. Background

A. Why is this Technical Amendment Being Issued?

This document updates the OMB control numbers listed in 40 CFR part 9 for various actions published in the **Federal Register** and issued under the Toxic Substances Control Act (TSCA) (15 U.S.C. 2601), the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136), and the Federal Food, Drug, and Cosmetic Act (FFDCA) (21 U.S.C. 408). Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to an information

collection request unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are codified in title 40 of the CFR, after appearing in the preamble of the final rule. These numbers are listed in 40 CFR part 9, displayed in a subsequent publication in the **Federal Register**, or displayed by other appropriate means, such as on a related collection instrument or form, or as part of the instructions to respondents. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9. In addition to displaying the applicable OMB control number in the final rule and on the applicable collection instruments, the Office of Chemical Safety and Pollution Prevention (OCSPP) has also typically listed the OMB control number in the table at 40 CFR 9.1 for regulations it has issued under TSCA, FIFRA, and FFDCA. With this technical amendment, OCSPP is updating the table in 40 CFR 9.1 to list the OMB control number assigned to several final rules that have published since its last update.

B. Why is this Technical Amendment Issued as a Final Rule?

The information collection activities referenced in this document were previously subject to public notice and comment as part of the rulemaking process, and this action does not in any way affect the referenced information collection activities or rulemakings. This action only amends the table at 40 CFR 9.1 to update the list of OMB control numbers listed there. Due to the technical nature of the table, EPA finds that further notice and comment about amending the table is unnecessary. As a result, EPA finds that there is "good cause" under section 553(b)(3)(B) of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(3)(B), to amend this table without further notice and comment.

C. What Specific Changes are Being Made?

EPA is adding several entries to the table in 40 CFR part 9 to reflect the promulgation of new regulatory provisions since the last update of this table. The paperwork burden associated with these new provisions was approved by OMB under PRA when the rules were promulgated.

EPA is amending the OMB control numbers of several existing entries to reflect changes to the OMB control numbers since the table was last updated. For example, EPA consolidated the activities that were approved under OMB control numbers 2070-0067 (EPA ICR No. 922), 2070-

0107 (EPA ICR No. 1504), and 2070-0164 (EPA ICR No. 1911) under a single OMB control number 2070-0174 (EPA ICR No. 2288). The approval of the consolidated ICR was announced in the **Federal Register** on June 15, 2009 (74 FR 28237) (FRL-8918-8).

EPA is removing several entries in the table in 40 CFR part 9. These entries are being removed due to erroneous entry, rule revocation, and re-designations. Since these provisions no longer exist or were erroneously entered, the corresponding listings in the table should be removed as well.

EPA is modifying the table through technical corrections to the text as well as the consolidation of several listings. Issues such as typographical errors, section duplications, and mislabeled headings are corrected through this amendment. In addition, the table listing has been consolidated into a single listing for the part when every section under a specific part shares an identical OMB control number. For information on the specific sections affected by this amendment, please refer to the docket.

III. Statutory and Executive Order Reviews

This final rule implements technical amendments to 40 CFR part 9 to reflect changes to OMB approvals under PRA. It does not otherwise impose or amend any requirements. As such, this action does not require review by OMB under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993), the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), or Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). Nor does it impose any enforceable duty, contain any unfunded mandate, or impose any significant or unique impact on small governments as described in the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action will not have substantial direct effects on State or tribal governments, on the relationship between the Federal Government and States or Indian tribes, or on the distribution of power and responsibilities between the Federal Government and States or Indian tribes. As such, it will not have any "federalism implications" as described by Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999) or "tribal implications" as described by Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 9, 2000). Nor does it involve any

technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA)(15 U.S.C. 272 note), environmental justice-related issues that would require consideration under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994), or otherwise involve anything that would have any adverse effect on the supply, distribution, or use of energy that would require consideration under Executive Order 13211, entitled *Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001).

In addition, since this action is not subject to notice-and-comment requirements under the APA or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*).

IV. Congressional Review Act

The Congressional Review Act (CRA), 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. Section 808 of CRA allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of June 30, 2010. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).
