SUPPLEMENTARY INFORMATION:

OMB Approval No. 2138-0013

Title: Report of Financial and Operating Statistics for Large Certificated Air Carriers.

Form No.: BTS Form 41.

Type Of Review: Extension of a currently approved collection.

Respondents: Large certificated air carriers.

Number of Respondents: 76.

Estimated Time per Response: 4 hours per schedule, an average carrier may submit 90 schedules in one year.

Total Annual Burden: 27,360 hours.

Needs and Uses: Program uses for Form 41 data are as follows:

Mail Rates

The Department of Transportation sets and updates mainline Alaska mail rates based on carrier aircraft operating expense, traffic and operational data. Form 41 cost data, especially fuel costs, terminal expenses, and line haul expenses are used in arriving at rate levels. DOT revises the established rates based on the percentage of unit cost changes in the carriers' operations. These updating procedures have resulted in the carriers receiving rates of compensation that more closely parallel their costs of providing mail service and contribute to the carriers' economic well-being.

Submission of U.S. Carrier Data to ICAO

As a party to the Convention on International Civil Aviation, the United States is obligated to provide the International Civil Aviation Organization with financial and statistical data on operations of U.S. air carriers. Over 99 percent of the data filed with ICAO is extracted from the carriers' Form 41 reports.

Carrier Fitness

Fitness determinations are made for both new entrants and established U.S. domestic carriers proposing a substantial change in operations. A portion of these applications consists of an operating plan for the first year (14 CFR part 204) and an associated projection of revenues and expenses. The carrier's operating costs, included in these projections, are compared against the cost data in Form 41 for a carrier or carriers with the same aircraft type and similar operating characteristics. Such a review validates the reasonableness of the carrier's operating plan.

Form 41 reports, particularly balance sheet reports and cash flow statements play a major role in the identification of vulnerable carriers. Data comparisons are made between current and past periods in order to assess the current financial position of the carrier. Financial trend lines are extended into the future to analyze the continued viability of the carrier. DOT reviews three areas of a carrier's operation: (1) The qualifications of its management

team, (2) its disposition to comply with laws and regulations, and (3) its financial posture. DOT must determine whether or not a carrier has sufficient financial resources to conduct its operations without imposing undue risk on the traveling public. Moreover, once a carrier is operating, DOT is required to monitor its continuing fitness.

Senior DOT officials must be kept fully informed as to all current and developing economic issues affecting the airline industry. In preparing financial conditions reports or status reports on a particular airline, financial and traffic data are analyzed. Briefing papers may use the same information.

The Confidential Information Protection and Statistical Efficiency Act of 2002 (44 U.S.C. 3501 note), requires a statistical agency to clearly identify information it collects for non-statistical purposes. BTS hereby notifies the respondents and the public that BTS uses the information it collects under this OMB approval for non-statistical purposes including, but not limited to, publication of both Respondent's identity and its data, submission of the information to agencies outside BTS for review, analysis and possible use in regulatory and other administrative matters.

[Docket No. FD 35363]

R.J. Corman Railroad Property, LLC— Acquisition Exemption—NC Railroad, Inc

R. J. Corman Railroad Property, LLC (RJC Railroad Property), a Class III rail carrier, filed a verified notice of exemption under 49 CFR 1150.41 to acquire from NC Railroad, Inc. (NCRL) approximately 42 route miles of rail line between milepost 0.144 at or near Oneida and milepost 42.0 at or near Devonia, in Scott, Campbell, and Anderson Counties, Tenn. The notice was served and published in the **Federal Register** on April 9, 2010 (75 FR 18,253), and became effective on April 25, 2010.

On May 28, 2010, RJC Railroad Property filed a correction to the notice. According to RJC Railroad Property, the acquisition for which exemption was

sought only involves the segment between milepost 0.95 (not milepost 0.144) and milepost 42.0. Thus, RJC Railroad Property indicates that the correct description of the subject line is that it extends between milepost 0.95 at or near Oneida and milepost 42.0 at or near Devonia. This correction is recognized here. All remaining information from the April 9, 2010 notice remains unchanged.

The acquisition transaction is related to the notice of exemption in Docket No. FD 35364, *R. J. Corman Railroad Company/Bardstown Line—Lease and Operation Exemption—R. J. Corman Railroad Property, LLC*, in which R. J. Corman Railroad Company/Bardstown Line filed a notice of exemption to lease and operate the line. The description of the line in Docket No. FD 35364 also is being corrected by separate notice.

[Docket No. FD 35529]

C&NC Railroad, LLC—Lease Renewal Exemption—Norfolk Southern Railway Company

Under 49 CFR 1011.7(a)(2)(x)(A), the Director of the Office of Proceedings (Director) is delegated the authority to determine whether to issue notices of exemption for lease transactions under 49 U.S.C. 10902. However, the Board reserves to itself the consideration and disposition of all matters involving issues of general transportation importance. 49 CFR 1011.2(a)(6). Accordingly, the Board revokes the delegation to the Director with respect to the issuance of this notice of exemption. The Board determines that this notice of lease renewal exemption should be issued, and does so here.

Notice

C&NC Railroad, LLC (C&NC), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to renew its lease of approximately 21 miles of rail line from Norfolk Southern Railway Company (NSR).¹ The rail lines

extend from (a) milepost CB5.4 at Beesons, Ind., to milepost 25.30 at New Castle, Ind., and (b) milepost R0.1 to milepost R1.16 at New Castle. C&NC has leased and operated the lines since 1997.² The 1997 lease agreement, by its terms, expired on December 9, 2009, and C&NC and NSR agreed to continue operations under the terms of the 1997 agreement pending renegotiation of a new lease. On March 11, 2011, the parties executed a new lease.³

As required at 49 CFR 1150.43(h), C&NC has disclosed that the new lease agreement contains an interchange commitment provision that would provide for a lease credit whereby C&NC may reduce its lease payments by receiving a credit for each car interchanged with NSR. C&NC notes that NSR initially proposed a fixed rental payment with no option to reduce the rent, but C&NC requested a lease credit option to provide an opportunity for C&NC to earn a lower rental payment so it would be able to invest in improvements on the leased lines to increase traffic levels. According to C&NC, the interchange point with NSR is New Castle.

C&NC certifies that the projected annual revenues as a result of the proposed transaction will not exceed those that would make it a Class III rail carrier and further certifies that its projected annual revenues would not exceed \$5 million.

The transaction is expected to be consummated on or after July 17, 2011, the effective date of the exemption (30 days after the exemption was officially filed).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than July 8, 2011 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 35529, must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In

notice to be considered as filed under 49 CFR 1150.41 instead of 49 CFR 1180.2(d)(4). The motion also includes a revenue certification and caption summary in compliance with the requirements for the class exemption at § 1150.41. Accordingly, the notice will be considered as filed under § 1150.41 with a filing date of June 17, 2011.

² See *C&NC R.R.—Lease and Operation Exemption—Line of the Norfolk and W. Ry. and Ind. Hi Rail*, FD 33475 (STB served Oct. 31, 1997).

³ C&NC has filed the new lease agreement under seal pursuant to 49 CFR 1150.43(h)(1)(ii).

¹ C&NC originally filed its notice of exemption on June 3, 2011, as a lease renewal under 49 CFR 1180.2(d)(4). That provision, however, applies to lease renewals “where the Board has previously authorized the transaction and only an extension of time is involved.” Because the new lease includes a new credit provision and milepost adjustments, on June 17, 2011, C&NC filed a motion for the
