SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92-463). The National Advisory Council (NAC) advises the Administrator of the Federal Emergency Management Agency (FEMA) on all aspects of emergency management. The NAC incorporates State, local, and Tribal governments, and private sector partners' input in the development and revision of FEMA policies and strategies. FEMA's Office of the NAC serves as the focal point for all NAC coordination.

Agenda: The NAC will meet for the purpose of reviewing the progress and/or potential recommendations of its four subcommittees: Preparedness and Protection, Response and Recovery, Public Engagement and Mission Support, and Federal Insurance and Mitigation. New members will be sworn in at the beginning of the meeting, and the Administrator and Deputy Administrator will discuss the general state of FEMA with the members.

The NAC will discuss the National Flood Insurance Program (NFIP) Reform Bill; FEMA's Private Sector Office initiative, the National Business Emergency Operation Center (NBOEC); youth preparedness and engagement; Mid-Level Career Program at the Emergency Management Institute (EMI); the Strategic Foresight Initiative (SFI); the use of specialized international teams in response; and the FEMA Qualification System (FQS). A FEMA

Program Office will brief the NAC on Emerging Topics in Emergency Management during lunch, scheduled for 1 p.m. to 2:15 p.m. EDT.

In 1968, Congress created the National Flood Insurance Program (NFIP) to help provide a way for property owners to financially protect themselves by offering flood insurance if their community participates in the NFIP. Participating communities adopt and enforce ordinances that meet or exceed FEMA requirements to reduce the risk of flooding. FEMA announced the extension of the Preferred Risk Policy eligibility under the NFIP until further notice, as the Agency completes a study and analysis of the Biggert-Waters Flood Insurance Reform Act of 2012, signed into law by President Obama on July 6, 2012. More information can be found at http://www.floodsmart.gov/floodsmart/pages/about/nfip_overview.jsp.

FEMA announced the first ever NBOEC under Emergency Support Function (ESF)-15 in the National Response Coordination Center. This NBOEC is envisioned as a groundbreaking new virtual organization that serves as FEMA's clearinghouse for two-way information sharing between public and private sector stakeholders in preparing for, responding to, and recovering from disasters. More information can be found at <http://www.fema.gov/private-sector-1>.

Youth preparedness is a priority at the Federal level. Since fall 2010, FEMA, the U.S. Department of Education and the American Red Cross have been collaborating to empower youth to build a more resilient nation through youth preparedness education. More information on Youth Preparedness Program can be found at <http://www.citizencorps.gov/ready/kids.shtm>.

EMI is the emergency management community's training institution, and provides training to Federal, State, local, Tribal, volunteer, public, and private sector officials to strengthen emergency management core competencies for professional, career-long training. More information on EMI can be found at <http://training.fema.gov/EMI/>.

SFI promotes broader and longer term thinking, how the world is changing and the effects on the emergency management community. Thinking more broadly and over a longer timeframe will help us understand these changes and their potential impacts. More information on SFI can be found at <http://www.fema.gov/about/programs/oppa/strategic foresight initiative.shtm>.

In the event that U.S.-based responders are overwhelmed there are

constraints on the entry and use of foreign responders due to concerns about liability and licensure issues. There are potential shortfalls in Urban Search and Rescue (US&R) capabilities needed to respond to catastrophic disasters and emphasizing the need to streamline how nations might share this important asset following a catastrophic disaster. More information can be found at <http://usaid.gov/>.

The primary purpose of the FEMA Qualifications System (FQS) is to provide the best possible customer service to survivors and communities working to respond to, recover from, and mitigate against disasters. FQS helps build FEMA's disaster response and recovery capability by providing personnel with the training and experience needed to assume positions of progressively greater responsibility. More information on FQS can be found at <http://www.fema.gov/fema-qualification-system-0>.

W. Craig Fugate,
Administrator, Federal Emergency Management Agency.
