

Important Note About the COVID-19 Pandemic

Travel and in-person activities are contingent upon the safety and health conditions in the United States and the mission countries. Should safety or health conditions not be appropriate for travel and/or in-person activities, the Department will consider postponing the event or offering a virtual program in lieu of an in-person agenda. In the event of a postponement, the Department will notify the public and applicants previously selected to participate in this mission will need to confirm their availability but need not reapply. Should the decision be made to organize a virtual program, the Department will adjust fees, accordingly, prepare an agenda for virtual activities, and notify the previous selected applicants with the option to opt-in to the new virtual program.

Conditions of Participation

An applicant must submit a completed and signed mission application and supplemental application materials, including adequate information on the company's products and/or services, primary market objectives, and goals for participation. Applicants must also submit a supplemental statement to ITA outlining how their products and services advance clean energy and climate goals in Southeast Asia and describing any current sustainable energy projects they are supporting in the region. If an incomplete application is received, the U.S. Department of Commerce may reject the application, request additional information, or take the lack of information into account when evaluating the applications.

Each applicant must provide certification that its products and/or services are being manufactured or produced in the United States or, if manufactured/produced outside of the United States, its products and/or services are marketed under the name of a U.S. firm and have U.S. content representing at least 51 percent of the value of the finished product or service. In the case of a trade association, the applicant must certify that, for each company to be represented by the trade association on the mission, the products and services that the represented company seeks to export are either produced in the United States or, if not, marketed under the name of a U.S. firm and have at least 51 percent U.S. content. Applicants are encouraged to reach out to ITA staff if they have any questions.

In addition, each applicant must:

- Certify that the export of the products and services that it wishes to market through the mission would be in compliance with U.S. export controls and regulations;
- Certify that it has identified any matter pending before any bureau or office in the U.S. Department of Commerce;
- Certify that it has identified any pending litigation (including any administrative proceedings) to which it is a party that involves the U.S. Department of Commerce;
- Sign and submit an agreement that it and its affiliates (1) have not and will not engage in the bribery of foreign officials in connection with a company's/participant's involvement in this mission, and (2) maintain and enforce a policy that prohibits the bribery of foreign officials; and
- Certify that it meets the minimum requirements as stated in this announcement.

In the case of a trade association/organization, the applicant must certify that each firm or service provider to be represented by the association/organization can make the above certifications.

The following criteria will be evaluated in selecting participants:

- Suitability of the applicant's (or in the case of a trade association/organization, represented firm or service provider's) products or services to these markets;
- Firm's or service provider's (or in the case of a trade association/organization, represented firms') potential for business in the markets visited and broader Indo-Pacific region, including likelihood of U.S. exports resulting from or otherwise advanced by the mission.
- Consistency of the firm's or service provider's (or in the case of a trade association/organization, represented firms') goals and objectives with the stated scope of the mission.

Balance of company size and location may also be considered during the overall review process. Referrals from a political party or partisan political group or any information, including on the application, containing references to political contributions or other partisan political activities will be excluded from the application and will not be considered during the selection process. The sender will be notified of these exclusions.

Timeline for Recruitment and Applications

Mission recruitment will be conducted in an open and public

manner, including publication in the **Federal Register**, posting on the U.S. Department of Commerce trade mission calendar (<https://export.gov/trademissions>) and other internet websites, press releases to general and trade media, direct mail, notices by industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows. Recruitment for the Mission will begin immediately.

The Department of Commerce will evaluate applications and inform applicants of selection decisions following the recruitment period. Applications received after April 1, 2022, will be considered only if space and scheduling constraints permit.

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

National Construction Safety Team Advisory Committee Meeting

AGENCY: National Institute of Standards and Technology, Department of Commerce

ACTION: Notice of open meeting.

SUMMARY: The National Construction Safety Team (NCST) Advisory Committee (Committee) will hold a virtual meeting via web conference on Wednesday, June 8, 2021, from 11:00 a.m. to 5:00 p.m. and Thursday, June 9,

2021, from 11:00 a.m. to 5:00 p.m. Eastern Time. The primary purpose of this meeting is to update the Committee on the progress of the NCST investigation focused on the impacts of Hurricane Maria in Puerto Rico, progress of the NCST investigation focused on the Champlain Towers South partial building collapse that occurred in Surfside, Florida, and the implementation of recommendations from the Joplin tornado investigation. The agenda may change to accommodate Committee business. The final agenda will be posted on the NIST website at <https://www.nist.gov/topics/disaster-failure-studies/national-construction-safety-team-ncst/advisory-committee-meetings>.

DATES: The NCST Advisory Committee will meet on Wednesday, June 8, 2021, from 11:00 a.m. to 5:00 p.m. and Thursday, June 9, 2021, from 11:00 a.m. to 5:00 p.m. Eastern Time.

ADDRESSES: The meeting will be held via web conference. For instructions on how to participate in the meeting, please see the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: Tanya Brown-Giammanco, Disaster and Failure Studies Program, Engineering Laboratory, NIST. Tanya Brown-Giammanco's email address is Tanya.Brown-Giammanco@nist.gov and her phone number is (240) 267-9504.

SUPPLEMENTARY INFORMATION: The Committee was established pursuant to Section 11 of the NCST Act (Pub. L. 107-231, codified at 15 U.S.C. 7301 *et seq.*). The Committee is currently composed of seven members, appointed by the Director of NIST, who were selected on the basis of established records of distinguished service in their professional community and their knowledge of issues affecting the National Construction Safety Teams. The Committee advises the Director of NIST on carrying out the NCST Act; reviews the procedures developed for conducting investigations; and reviews the reports issued documenting investigations. Background information on the NCST Act and information on the NCST Advisory Committee is available at <https://www.nist.gov/topics/disaster-failure-studies/national-construction-safety-team-ncst/advisory-committee>.

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. App., notice is hereby given that the NCST Advisory Committee will meet on Wednesday, June 8, 2021, from 11:00 a.m. to 5:00 p.m. and Thursday, June 9, 2021, from 11:00 a.m. to 5:00 p.m. Eastern Time. The meeting will be open to the public and will be held via web

conference. Interested members of the public will be able to participate in the meeting from remote locations. The primary purpose of this meeting is to update the Committee on the progress of the NCST investigation focused on the impacts of Hurricane Maria in Puerto Rico, progress of the NCST investigation focused on the Champlain Towers South partial building collapse that occurred in Surfside, Florida, and the implementation of recommendations from the Joplin tornado investigation. The agenda may change to accommodate Committee business. The final agenda will be posted on the NIST website at <https://www.nist.gov/topics/disaster-failure-studies/national-construction-safety-team-ncst/advisory-committee-meetings>.

Individuals and representatives of organizations who would like to offer comments and suggestions related to items on the Committee's agenda for this meeting are invited to request a place on the agenda. Approximately thirty minutes will be reserved for public comments and speaking times will be assigned on a first-come, first-served basis. Public comments can be provided via email or by web conference attendance. The amount of time per speaker will be determined by the number of requests received. Questions from the public will not be considered during this period. All those wishing to speak must submit their request by email to the attention of Peter Gale at Peter.Gale@nist.gov by 5:00 p.m. Eastern Time, Tuesday, May 31, 2022. Speakers who wish to expand upon their oral statements, those who wish to speak but cannot be accommodated on the agenda, and those who are unable to attend are invited to submit written statements electronically by email to disaster@nist.gov.

Anyone wishing to attend this meeting via web conference must register by 5:00 p.m. Eastern Time, Tuesday, May 31, 2022, to attend. Please submit your full name, the organization you represent (if applicable), email address, and phone number to Peter Gale at Peter.Gale@nist.gov.

Alicia Chambers,

NIST Executive Secretariat.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Licensing of Private Remote-Sensing Space Systems

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; correction.

SUMMARY: On February 8, 2022, the Department of Commerce, published a 60-day public comment period notice in the **Federal Register** with FR Document Number 2022-02601 (Pages 7156-7157) seeking public comments for an information collection entitled, "Licensing of Private Remote Sensing Space Systems." This document referenced incomplete information in the ABSTRACT and DATA sections, and Commerce hereby issues a correction notice as required by the Paperwork Reduction Act of 1995.

FOR FURTHER INFORMATION CONTACT: For additional information concerning this correction, contact Adrienne Thomas, NOAA PRA Officer, at 240-577-2372 or NOAA.PRA@noaa.gov.

SUPPLEMENTARY INFORMATION:

Correction

Abstract

NOAA is proposing to add a third new form to this information collection. The optional Licensee Notification Form (LNF) information includes contact information and the option to report one of four types of events, including (1) the launch or deployment of a system component; (2) the disposal of a system component; (3) the detection of an anomaly in a system; and (4) the financial insolvency of the licensee. The existing IC already allows for the collection of this information, the collection of which is required by statute and regulations. The LNF will ease the burden on licensees when reporting this already-required information. The LNF may be submitted electronically through the NOAA website throughout the term of a license. The LNF information received is used to record events in the lifecycle of the system and to help determine if modifications to a license are required. The LNF ensures that only required information is submitted, thereby reducing unnecessary paperwork and/or follow-up correspondence.
