SUPPLEMENTARY INFORMATION:

The National Flood Insurance Program (NFIP) is authorized by the National Flood Insurance Act of 1968 (90–448, title XIII) and expanded by the Flood Disaster Protection Act of 1973 (93–234) and requires that FEMA provide flood insurance. FEMA delineates flood zones on a Flood Insurance Rate Map to identify Special Flood Hazard Areas (SFHAs) in a community. 44 CFR 60.3(c)(2) requires that all new construction and substantial improvements of residential structures within SFHA Zones A1–30, AE, AH, and AO zones have the lowest floor, including the basement, elevated to or above the base flood level unless a community-wide exception or site-specific variance is granted. 44 CFR 60.6(a)(7) and 44 CFR 60.6(b)(1) allow communities to apply for an exception when circumstances present a hardship that would not allow for adherence to the requirement for elevation above the base flood level. This exception must meet the conditions set forth in 44 CFR 60.6(c). When owners of residential structures in these zones are seeking flood insurance, they must be certified that the structural design is floodproof.
