

request program assumption; there will be approximately 14,000 permit applications (3,500 applications per state); and 4 States/Tribes which have assumed the program (the two current programs and potentially two who may be approved under this ICR) which will submit an annual report.

Frequency of response: States/Tribes will respond one time to request assumption and once the program is approved they will respond annually for the annual permit and annual report; permit applicants will respond one time when requesting a permit.

Total estimated burden: The public reporting and recordkeeping burden for this collection of information is estimated to be 90,960 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: Costs to states for assumed Section 404 permit programs will vary widely by state and permit, however there are \$0 capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 10,400 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is because the estimated number of permits reviewed by a state per year decreased. This decrease is based on the experience of the state of New Jersey, due in part to a change in the economy and to a recalculation in the number of permits estimated. There was an increase in the number of hours spent reviewing each permit, due to an increase in the number of times applicants requested a review of mitigation options. The estimate used here is a weighted average of Michigan's and New Jersey's estimates.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information

collection request (ICR), "Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Renewal)" (EPA ICR No. 1808.07, OMB Control No. 2020-0007) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through March 31, 2014. Public comments were previously requested via the **Federal Register** (78 FR 57847) on September 20, 2013 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before February 28, 2014.

EPA ICR #: 1808.07.

OMB Control #: 2020-0007.

Abstract: The Environmental Protection Agency's (EPA's) regulations at 40 CFR part 8, Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Rule), were promulgated pursuant to the Antarctic Science, Tourism, and Conservation Act of 1996 (Act), 16 U.S.C. 2401 *et seq.*, as amended, 16 U.S.C. 2403a, which implements the Protocol on Environmental Protection (Protocol) to the Antarctic Treaty of 1959 (Treaty). The Rule provides for assessment of the environmental impacts of nongovernmental activities in Antarctica, including tourism, for which the United States is required to give advance notice under Paragraph 5 of Article VII of the Treaty, and for coordination of the review of information regarding environmental impact assessments received from other Parties under the Protocol. Persons subject to the Rule must prepare environmental documentation to support the operator's determination regarding the level of environmental impact of the proposed expedition. The Protocol and the Rule also require an operator to employ procedures to assess and provide a regular and verifiable record of the actual impacts of an activity which proceeds on the basis of an Initial Environmental Evaluation (IEE) or Comprehensive Environmental Evaluation (CEE).

Form Numbers: None.

Respondents/affected entities: Private operators.

Respondent's obligation to respond: Mandatory (40 CFR part 8).

Estimated number of respondents: 18.

Frequency of response: Annual.

Total estimated burden: 1,254 hours.

Total estimated cost: \$100,575 (per year) includes \$3,390 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 454 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is the result of a change to the level of environmental documentation EPA anticipates the operators will submit as well as an anticipated decrease of operators submitting documentation.
