An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

#### Incorporation by Reference

Class D and E airspace is published in paragraphs 5000, 6004, and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. These updates would be published subsequently in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

#### The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by:

Amending the Class D airspace to within a 4.4-mile (reduced from a 4.5-mile) radius of Hector International Airport, Fargo, ND;

Amending the Class E airspace designated as an extension to Class D airspace to within 1.9 (increased from 1.7) miles each side of the 009° bearing (previously radial) of the Fargo VOR/DME extending from the 4.4-mile (reduced from a 4.5-mile) radius of Hector International Airport to 6.6 (reduced from 7.8) miles south of the airport; and removing the city associated with the airport in the header of the airspace legal description to comply with changed to FAA Order JO 7400.2P, Procedures for Handling Airspace Matters.

Also, amending the Class E airspace extending from 700 ft above the surface to within a 6.9-mile (reduced from a 7-mile) radius of Hector International Airport; removing the extensions north, southwest, and southwest of the airport as they are no longer needed; adding an extension 1.1 miles each side of the 009° bearing from the Fargo VOR/DME extending from the 6.9-mile radius to 8.1 miles south of the airport; removing the airspace extending upward from 1,200 feet above the surface as it is redundant to the Class E airspace extending upward from 1,200 feet above the surface over the State of North

Dakota and State of Minnesota; removing the city associated with the airport in the header of the airspace legal description to comply with changes to FAA Order JO 7400.2P; and updating the geographic coordinates of Hector International Airport and the name of the Fargo VOR/DME (previously Fargo VORTAC) to coincide with the FAA's aeronautical database.

This action is the result of a biennial airspace review.

#### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
