

\$815,580 is insufficient to produce the annual revenues necessary to accomplish repayment as required by Section 5 of the Flood Control Act of 1944 and Department of Energy (DOE) Order No. RA 6120.2. The increased revenue requirement is due to an increase in the U.S. Army Corps of Engineers (Corps) projected operations and maintenance costs. The Revised PRS indicates that an increase in annual revenues of \$113,808 beginning October 1, 2008, is sufficient to accomplish repayment of the Federal investment in the required number of years. Accordingly, Southwestern developed a proposed rate schedule based on that increased revenue requirement.

Title 10, Part 903, Subpart A of the Code of Federal Regulations, "Procedures for Public Participation in Power and Transmission Rate Adjustments and Extensions," has been followed in connection with the proposed rate adjustment. More specifically, opportunities for public review and comment during a 30-day period on the proposed Willis power rate were announced by a **Federal Register** (73 FR 45435) notice published on August 5, 2008. The combined Public Information and Comment Forum scheduled for August 13, 2008, in Tulsa, Oklahoma was canceled as no one expressed an intent to participate. Written comments were due by September 4, 2008. Southwestern provided the **Federal Register** notice, together with requested supporting data, to the customer and interested parties for review and comment during the formal period of public participation. In addition, prior to the formal 30-day public participation process, Southwestern discussed with the customer representatives the preliminary information on the proposed rate adjustment. Only one formal comment was received during the public process. That comment, on behalf of SRMPA, Sam Rayburn Dam Electric Cooperative, and the Vinton Public Power Authority, expressed no objection to the final proposed rate.

Upon conclusion of the comment period in September 2008, Southwestern finalized the PRS and rate schedule for the proposed annual rate of \$929,388 which is the lowest possible rate needed to satisfy repayment criteria. This rate represents an annual increase of 14.0 percent.

Availability of Information

Information regarding this rate increase, including studies and other supporting material, is available for public review and comment in the offices of Southwestern Power

Administration, One West Third Street, Tulsa, Oklahoma 74103.

Comments and Responses

Southwestern received one written comment in which the customer representative expressed no objection to the proposed rate adjustment.

Other Issues

There were no other issues raised during the informal discussions or during the formal public participation period.

Administrator's Certification

The 2008 Revised Willis PRS indicates that the annual power rate of \$929,388 will repay all costs of the project, including amortization of the power investment consistent with provisions of the Department of Energy (DOE) Order No. RA 6120.2. In accordance with Delegation Order Nos. 00-037.00 (December 6, 2001) and 00-001.00C (January 31, 2007), and Section 5 of the Flood Control Act of 1944, the Administrator has determined that the proposed Willis power rate is consistent with applicable law and the lowest possible rate consistent with sound business principles.

Environment

The environmental impact of the rate increase proposal was evaluated in consideration of DOE's guidelines for implementing the procedural provisions of the National Environmental Policy Act, 10 CFR 1021, and was determined to fall within the class of actions that are categorically excluded from the requirements of preparing either an Environmental Impact Statement or an Environmental Assessment.

Order

In view of the foregoing and pursuant to the authority delegated to me, I hereby confirm, approve and place in effect on an interim basis, for the period October 1, 2008, through September 30, 2012, the annual Robert Douglas Willis Hydropower Rate of \$929,388 for the sale of power and energy from Robert Douglas Willis project to the Sam Rayburn Municipal Power Agency, under Contract No. DE-PM75-85SW00117, as amended. This rate shall remain in effect on an interim basis through September 30, 2012, or until the FERC confirms and approves the rate on a final basis.

Dated: September 25, 2008.

Jeffrey Kupfer,

Deputy Secretary.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2008-0433; FRL-8724-3]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Carbon Black, Ethylene, Cyanide, and Spandex (Renewal), EPA ICR Number 1983.05, OMB Control Number 2060-0489

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR that is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before November 3, 2008.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2008-0433, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: John Schaefer, Office of Air Quality Planning and Standards, Sector Policies and Programs Division (D243-05), Measurement Policy Group, Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0296; fax number: (919) 541-3207; e-mail address: schaefer.john@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 30, 2008 (73 FR 31088), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2008-0433, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744 and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Carbon Black, Ethylene, Cyanide, and Spandex (Renewal).

ICR Numbers: EPA ICR Number 1983.05, OMB Control Number 2060-0489.

ICR Status: This ICR is scheduled to expire on November 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: All existing sources must be in compliance with the requirements of the Generic Maximum Achievable Control Technology (MACT) National Emissions Standard for Hazardous Air Pollutants (NESHAP) within three years of the effective date (promulgation date) of standards for an affected source. All new sources must be in compliance with the requirements of the Generic MACT (GMACT) NESHAP upon startup or prior to the promulgation date of standards for an affected source, whichever is later. These standards apply to hazardous air pollutant (HAP) emission sources in the carbon black production, cyanide chemicals manufacturing, ethylene production, and spandex production source categories.

Compliance is assumed through initial performance testing or design analysis, as appropriate, and ongoing compliance is demonstrated through parametric monitoring. The facilities are subject to the major source provisions specified under the GMACT NESHAP.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 90 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Facilities that manufacture carbon black, cyanide chemicals, ethylene, and spandex.

Estimated Number of Respondents: 72.

Frequency of Response: Occasionally, semiannually and annually.

Estimated Total Annual Hour Burden: 13,533

Estimated Total Annual Cost: \$1,439,214, which is comprised of Operations & Management (O&M) costs of \$359,065, labor costs of \$1,080,149, and no annualized capital/start-up costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: September 26, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.
