SUPPLEMENTARY INFORMATION: The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions;
- Propose ways to enhance the quality, utility, and clarity of the information to be collected; and
- Propose ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on November 17, 2023 at Vol. 88, No. 221 Page Number 80285. This comment period ended January 16, 2024. Zero public comments were received from this Notice.

Title of Collection: Package for AmeriCorps VISTA Application and Reporting Forms.

OMB Control Number: 3045–0038.
Type of Review: Revision.

Respondents/Affected Public: Businesses and Organizations OR State, Local or Tribal Governments.

Total Estimated Number of Annual Responses: 750.

Total Estimated Number of Annual Burden Hours: 17,500.

Abstract: AmeriCorps seeks to renew the current information collection with revisions. AmeriCorps VISTA is revising its application and reporting package to reflect clarifications, make technical corrections, and simplify both the Support and Program Grant budget instructions. The Concept Paper and Application are being revised to add information about the Unique Entity ID

registration process on *SAM.gov*. The VISTA Progress Report and Progress Report Supplement were not revised. The information collection will otherwise be used in the same manner as the existing application. AmeriCorps also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on March 31, 2024.

Carly Bruder,

Acting Director, AmeriCorp VISTA.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Postsecondary Education Complaint Intake System; DD Form 2961; OMB Control Number: 0704–0501.

Type of Request: Extension.
Number of Respondents: 150.
Responses per Respondent: 1.
Annual Responses: 150.
Average Burden per Response: 15 minutes.
Annual Burden Hours: 37.5.

Needs and Uses: The Postsecondary Education Complaint information collection is necessary to obtain, document, and respond to complaints, questions, and other issues concerning educational programs and services provided to military students, and their adult family members. It allows DoD to monitor and track the types of complaint issues that are submitted, the complaint content, the educational institutions the complaints have been filed against, the type of education benefits being used, and the branch of the military service. The information collected via the DoD Intake form is used to assist in further developing and shaping of relevant mitigating and preventative measures concerning abusive, deceptive, and fraudulent practices against service members and spouses who are pursuing higher education utilizing Tuition Assistance and My Career Advancement Account. *Affected Public:* Individuals or households.

Frequency: On occasion.

Respondent’s Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number, and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Mr. Lane Purvis.

Requests for copies of the information collection proposal should be sent to Mr. Purvis at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

Dated: January 25, 2024.

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice of request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995.

DATES: Comments regarding this proposed information collection must be received on or before March 1, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 395-4718.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Aisha Miranda Rivera, Department of Energy, Grid Deployment Office, 1000 Independence Avenue SW, Suite 4H-065, Washington, DC 20585; (240) 429-5213; aisha.miranda-rivera@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains:

- (1) *OMB No.*: 1910-5200;
- (2) *Information Collection Request Titled*: Puerto Rico Energy Resiliency Fund (PR-ERF), Household Intake Form;
- (3) *Type of Review*: Revision of a currently approved collection.
- (4) *Purpose*: To authorize the use of the ‘Household Intake Form’ to collect homeowner data necessary to qualify households as eligible to receive rooftop

solar and battery storage installations as prescribed under the DOE Grid Deployment Office's (GDO) PR-ERF. Eligibility is limited to very low-income, single-family households that (1) reside in a Last Mile Community and/or (2) include an individual with an energy-dependent disability.

The PR-ERF, a \$1 billion initiative authorized by Congress under the Consolidated Appropriations Act of 2023, Public Law 117-328, will incentivize the installation of rooftop solar and battery storage technologies for eligible households.

GDO plans to initiate installations of solar PV and battery storage systems before the 2024 hurricane season to address the harm and risk represented by the fragility of the islands' power system. Failure to collect the information necessary to verify eligibility in a timely manner will cause delays in providing assistance necessary to reestablish the reliability of electric service to these vulnerable residents. This narrow scope in purpose necessitates the need for a diligent verification process to demonstrate to Congress, Senior Leadership, and the public that this specific demographic has been served. GDO developed an in-person application process recognizing that the demographic served will lack access to broadband and have limited mobility but that it is essential to program operation to verify beneficiary eligibility for participation in the program.

(5) *Annual Estimated Number of Respondents*: 40,160;

(6) *Annual Estimated Number of Total Responses*: 80,000;

(7) *Annual Estimated Number of Burden Hours*: 56,800;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$845,520;

Statutory Authority: The Consolidated Appropriations Act of 2023, Public Law 117-328, directs the Department of Energy to improve the resilience of the Puerto Rican electric grid, including grants for low-and-moderate-income households and households that include individuals with disabilities for the purchase and installation of renewable energy, energy storage, and other grid technologies.

PacifiCorp; Notice of Intent To Prepare an Environmental Assessment

On March 16, 2023, PacifiCorp filed an application for a non-capacity amendment for the Bear River Hydroelectric Project No. 20 and an application for surrender of the conduit exemption for the Paris Hydroelectric Project No. 703. The Bear River Project is located on Bear River in Franklin and Caribou counties, Idaho, and occupies Federal lands administered by the U.S. Forest Service and U.S. Bureau of Land Management. The Paris Project is located on Paris Creek in Bear Lake County, Idaho, and does not occupy Federal lands.

PacifiCorp's proposal to surrender the Paris Project conduit exemption (P-703) is part of a larger habitat restoration effort proposed by PacifiCorp and the parties to a relicensing settlement agreement for PacifiCorp's Bear River Hydroelectric Project (P-20). PacifiCorp proposes to decommission the Paris Project and stop the diversion of water from Paris Creek into the irrigation canal that serves the Paris Project. After decommissioning and surrender, flows currently diverted through the canal would be returned to Paris Creek for the enhancement and restoration of approximately 3.5 miles of cold-water habitat for Bonneville Cutthroat Trout in the currently bypassed reach of Paris Creek. To partially mitigate the cost of the proposed decommissioning of the Paris Project, PacifiCorp proposes to amend the license for the Bear River Project to reduce the minimum instream flow requirement in the Grace Development's bypassed reach. This reduction in required minimum instream flow would allow PacifiCorp to
