

meeting agenda and briefing materials, will be available on EPA's website at www.epa.gov/waterfinancecenter/efab.

Procedures for Providing Public Input: Public comment for consideration by EPA's Federal advisory committees has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees provide independent advice to EPA. Members of the public may submit comments on matters being considered by the EFAB for consideration as the Board develops its advice and recommendations to EPA.

Oral Statements: In general, individuals or groups requesting an oral presentation at a public meeting will be limited to three minutes each. Persons interested in providing oral statements at the October 2023 meeting should register in advance and provide notification, as noted in the registration confirmation, by October 18, 2023, to be placed on the list of registered speakers.

Written Statements: Written statements should be received by October 16, 2023, so that the information can be made available to the EFAB for its consideration prior to the meeting. Written statements should be sent via email to efab@epa.gov. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the EFAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities or to request accommodations for a disability, please register for the meeting and list any special requirements or accommodations needed on the registration form at least 10 business days prior to the meeting to allow as much time as possible to process your request.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through September 30, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on March 31, 2023 during a 60-day comment period (88 FR 19301). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR is for activities related to the implementation of the EPA's regional haze rule, for the time period between September 30, 2023, and September 30, 2026, and renews the previous ICR. The regional haze rule codified at 40 CFR parts 308 and 309, as authorized by sections 169A and 169B of the Clean Air Act, requires states to develop implementation plans to protect visibility in 156 federally protected Class I areas. Tribes may choose to develop implementation plans. For this time period, all 50 states, the District of Columbia, and the U.S. Virgin Islands will be developing and submitting periodic progress reports. Further, 14 states/territories will be developing and submitting periodic comprehensive implementation plan revisions to comply with the regulations.

Form Numbers: None.

Respondents/affected entities: State, local and tribal air quality agencies, regional planning organizations and facilities potentially regulated under the Regional Haze Rule.

Respondent's obligation to respond: Mandatory [40 CFR 51.308(b), (f) and (g)].

Estimated number of respondents: 52 (total).

Frequency of response: Approximately every 5 years.

Total estimated burden: 15,846 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$932,062 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is decrease of 22,409 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease in burden reflects changes in the activities conducted due to the normal progression of the program, especially the fact that all 50 states, the District of Columbia, and the U.S. Virgin Islands will be developing and submitting progress reports by January 31, 2025, while 14 states/territories will be submitting periodic comprehensive State Implementation Plan (SIP) revisions. In the previous ICR period, we assumed 52 states/territories would be developing and submitting comprehensive SIP revisions.

Director, Regulatory Support Division.
