To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

Proposed Project

Baseline Survey of National Education and Awareness Social Marketing Campaign: Employer Efforts to Support the Mental Health of Health Workers—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

NIOSH is requesting approval of a new data collection for a period of one year under the project titled Baseline Survey of National Education and Awareness Social Marketing Campaign: Employer Efforts to Support the Mental Health of Health Workers. As part of the COVID-19 American Rescue Plan of 2021 and in response to a Congressional mandate, NIOSH is taking an active stance to address mental health concerns, to include substance use disorders, among the more than 20 million workers in the nation's healthcare sector. NIOSH, the federal agency tasked with conducting research to contribute to reductions in occupational illnesses, injuries, and hazards, plans to conduct a national social marketing campaign to promote awareness and education of employers and health workers about mental health. By conducting a national social marketing campaign, NIOSH intends to reach both health employers and health workers with information about organizational programs, services, policies, and practices to support worker mental health and the

importance of taking action to support one's mental health. The immediate anticipated outcomes of the campaign include:

1. Increased awareness and knowledge of mental health risks among healthcare workers, by both workers themselves and by their employers, and
2. Increased awareness of evidence-based interventions, policies, practices, services, and other resources among healthcare workers, by both workers themselves and by their employers.

Additionally, NIOSH aims for the campaign to not only increase healthcare employers' intent to implement workplace mental health support, but to increase workers ability to identify and intent to utilize those support services. To begin to understand whether these outcomes have been achieved, at the conclusion of the campaign NIOSH must first establish baseline metrics for these outcomes prior to the campaign's launch. Hence the need for this

requested data collection. Secondly, this information may also be used in further campaign development.

NIOSH anticipates seeking 500 healthcare worker respondents and 500 healthcare employer respondents for a total of 1,000 total survey respondents. We estimate that the survey will take approximately 15 minutes to complete per for a total of 250 annual burden hours. Participation is voluntary, and there is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Healthcare Employers	Survey	500	1	15/60	125
Healthcare Employees	Survey	500	1	15/60	125
Total	250

SUPPLEMENTARY INFORMATION:

Description: The Federal Tax Refund Offset and Administrative Offset programs collect past-due child and spousal support by intercepting certain federal payments, including federal tax refunds, of parents who have been ordered to pay support and are delinquent. The Federal Offset Program is a cooperative effort among the U.S. Department of the Treasury's Bureau of the Fiscal Service, OCSE, and state child support enforcement agencies. The Passport Denial Program reports noncustodial parents who owe child and spousal support above a specified threshold to the U.S. Department of State, which will then deny passports to these individuals. State child support enforcement agencies routinely submit the names, Social Security numbers, and the amount(s) of past-due child and spousal support of noncustodial parents who are delinquent in making payments to OCSE.

Respondents: Child Support Enforcement Agencies.
