The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on March 25, 2025. **FOR FURTHER INFORMATION CONTACT:** Michael Howell by telephone at 202–693–6782, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** The Genetic Information Nondiscrimination Act of 2008 (GINA), Public Law 110–233, was enacted on May 21, 2008. Title I of GINA amended the Employee Retirement Income Security Act of 1974 (ERISA), the Public Health Service Act (PHS Act), the Internal Revenue Code of 1986 (the Code), and the Social Security Act (SSA) to prohibit discrimination in health coverage based on genetic information. Sections 101 through 103 of Title I of GINA prevent employment-based group health plans and health insurance issuers in the group and individual markets from discriminating based on genetic information and from collecting such information.

GINA and the interim final regulations (29 CFR 2590.702–1(c)(5)) provide an exception to the limitations on requesting or requiring genetic

testing that allows a group health plan or group health insurance issuer to request, but not require, a participant or beneficiary to undergo a genetic test if all of the following conditions of the research exception are satisfied.

First, the request must be made pursuant to research that complies with 45 CFR part 46 (or equivalent Federal regulations) and any applicable State or local law or regulations for the protection of human subjects in research. To comply with the informed consent requirements of 45 CFR 46.116(a)(8), a participant must receive a disclosure that participation in the research is voluntary, refusal to participate cannot involve any penalty or loss of benefits to which the participant is otherwise entitled, and the participant may discontinue participation at any time without penalty or loss of benefits to which the participant is entitled (the Participant Disclosure).

Second, the plan or issuer must make the request in writing and must clearly indicate to each participant or beneficiary (or in the case of a minor child, to the legal guardian of such beneficiary) to whom the request is made that compliance with the request is voluntary and noncompliance will have no effect on eligibility for benefits, premium, or contribution amounts.

Third, none of the genetic information collected or acquired as a result of the research may be used for underwriting purposes. Finally, the plan or issuer must complete a copy of the “Notice of Research Exception under the Genetic Information Nondiscrimination Act” and provide it to the address specified in its instructions. The Notice and instructions are available on the Department’s website. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 9, 2024 (89 FR 56416).
