

Specifically, an applicant for a PLUS loan who is determined to have an adverse credit history must complete loan counseling offered by the Secretary before receiving the Federal PLUS loan.

The Department is requesting an extension to the information collection regarding the adverse credit history regulations in 34 CFR 685.200 (b) and (c) and the burden these changes create for Federal PLUS loan borrowers, both parent and graduate/professional students.

Dated: February 13, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

National Definition for a Zero Emissions Building: Part 1 Operating Emissions Version 1.00m Draft Criteria; Reopening of Public Comment Period

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Request for information; reopening of public comment period.

SUMMARY: On January 9, 2024, the U.S. Department of Energy (DOE) published in the **Federal Register** a Request for Information (RFI) regarding the creation of a standardized, verifiable basis for defining a zero emissions building by the White House Office of Domestic Climate Policy (Climate Policy Office), through DOE. The RFI provided for the submission of written comments by February 5, 2024. This notice announces a reopening of the public comment period for submitting comments in response to the RFI through March 6, 2024.

DATES: The comment period for the RFI published on January 9, 2024 (89 FR 1086) is reopened. DOE will accept comments, data, and information regarding this RFI received no later than March 6, 2024.

ADDRESSES: Responses to this RFI must be submitted electronically at <https://forms.office.com/g/Y0Ss3UFdL3>.

FOR FURTHER INFORMATION CONTACT: Hayes Jones, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy (EERE), Building Technologies Office, Commercial

Buildings Integration, (202) 586–8873, Hayes.Jones@ee.doe.gov.

SUPPLEMENTARY INFORMATION: On January 9, 2024, DOE published in the **Federal Register** a request for information (RFI) regarding the creation of a standardized, verifiable basis for defining a zero emissions building by the Climate Policy Office, through DOE. The RFI does not pertain to a rulemaking action. In addition to other net-zero emissions, economy-wide goals by 2050, within the building sector, the Biden-Harris Administration has set the goal to make zero emissions resilient new construction and retrofits comment practice by 2030. Accomplishing these goals will require increasing efficiency and expanding clean energy capacity. Zero emissions buildings will plug into a grid that is rapidly becoming cleaner.

The American Gas Association, American Public Gas Association, and National Propane Gas Association (“Joint Requesters”) have requested a 30-day extension of the comment period to allow additional time for preparation of their comments. The Joint Requesters explain that they provide the energy needed to fuel residential, commercial, and industrial buildings and are thus stakeholders in this proceeding. The Joint Requesters explained that they need additional time to develop comments that sufficiently analyze the impacts of the proposed definition and because limited staff available during the comment period would make it difficult to develop comments in response to the RFI. Similarly, the National Association of Home Builders requested an extension of the comment period because of staffing limitations and concerns over the definition for which they would like additional time to provide feedback.

DOE has determined that reopening the public comment period is appropriate based on the foregoing reasons. DOE will consider any comments received by 11:59 p.m. (Eastern Standard Time) of March 6, 2024, and deems any comments received by that time to be timely submitted.

Signing Authority

This document of the Department of Energy was signed on February 8, 2024, by Jeffrey Marootian, Principal Deputy Assistant Secretary for Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE **Federal**

Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on February 13, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Northern New Mexico

AGENCY: Office of Environmental Management (EM), Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces an in-person/virtual hybrid meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Northern New Mexico. The Federal Advisory Committee Act requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, March 20, 2024; 1 p.m. to 5 p.m. MDT.

ADDRESSES: This hybrid meeting will be open to the public in person and via WebEx. To attend virtually, please contact the Northern New Mexico Citizens Advisory Board (NNMCAB) Executive Director (below) no later than 5 p.m. MDT on Friday, March 15, 2024.

Cities of Gold Hotel,
10–A Cities of Gold Road,
Santa Fe, New Mexico 87506

FOR FURTHER INFORMATION CONTACT: Bridget Maestas, NNMCAB Executive Director, by phone: 505–709–7466 or email: bridget.maestas@em.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to provide advice and recommendations concerning the following EM site-specific issues: clean-up activities and environmental restoration; waste and nuclear materials management and disposition; excess facilities; future land use and long-term stewardship. The Board may also be asked to provide advice and recommendations on any EM program components.

Tentative Agenda:
