

housed at the USP and FPC will be transferred to the new facilities along with the complement of correctional officers and other staff. After this transfer, the existing USP and FPC will no longer house inmates.

The analysis conducted under NEPA guidelines address the following alternatives:

- No Action Alternative—A decision not to proceed with the proposed action to develop a new FCI/FPC.
- Alternative Locations—Locations other than Leavenworth, Kansas, for implementation of the proposed action and warranting only a brief explanation of the reasons for elimination.
- Action Alternatives—Alternative building location within the grounds of USP Leavenworth which best meets BOP requirements for development while minimizing potential adverse environmental impacts.
- Preferred Alternative—The alternative preferred by the BOP for implementation of the proposed action.

No reasonable alternatives outside the jurisdiction of the BOP (the lead agency) have been identified or warranted inclusion in the FSEIS. Development of the proposed FCI/FPC at USP Leavenworth under the East-1 plan is considered by the BOP to be the Preferred Alternative.

The BOP issued a Draft Supplemental EIS in November 2020 with publication of the Notice of Availability (NOA) in the **Federal Register** on November 20, 2020. The NOA provided for a 45-day public comment period which began on November 20, 2020, and ended on January 4, 2021. During the public comment period, the BOP held a virtual public hearing concerning the proposed action and the Draft Supplemental EIS on December 30, 2020. Approximately 39 individuals attended the public hearing.

The Final Supplemental EIS addressed comments received on the Draft Supplemental EIS. Publication of the NOA in the **Federal Register** concerning the Final Supplemental EIS occurred on February 26, 2021. The 30-day review period for receipt of public comments concerning the Final Supplemental EIS ended on March 29, 2021. The comments received on the Final Supplemental EIS were considered in the decision presented in the ROD.

BOP provided written notices of the availability of the Draft Supplemental EIS and the FSEIS in the **Federal Register**, a newspaper with local and regional circulations, and through publication on a website established for this EIS process at [https://](https://www.proposed-fci-fpc-leavenworth.com/communications)

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice of certain Federal agency requests for records disposition authority (records schedules). We publish notice in the **Federal Register** and on [regulations.gov](https://www.regulations.gov) for records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on such records schedules.

DATES: NARA must receive comments by July 6, 2021.

ADDRESSES: You may submit comments by the following method. You must cite the control number, which appears on the records schedule in parentheses after the name of the agency that submitted the schedule.

SUPPLEMENTARY INFORMATION:

Public Comment Procedures

We are publishing notice of records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on these records schedules, as required by 44 U.S.C. 3303a(a), and list the schedules at the end of this notice by agency and subdivision requesting disposition authority.

In addition, this notice lists the organizational unit(s) accumulating the records or states that the schedule has agency-wide applicability. It also provides the control number assigned to each schedule, which you will need if you submit comments on that schedule. We have uploaded the records schedules and accompanying appraisal memoranda to the [regulations.gov](https://www.regulations.gov) docket for this notice as “other” documents. Each records schedule contains a full description of the records at the file unit level as well as their proposed disposition. The appraisal memorandum for the schedule includes information about the records.

We will post comments, including any personal information and attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the [regulations.gov](https://www.regulations.gov) portal, you may contact request.schedule@nara.gov for instructions on submitting your comment.

We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we will post on [regulations.gov](https://www.regulations.gov) a “Consolidated Reply” summarizing the comments, responding to them, and noting any changes we have made to the proposed records schedule. We will then send the schedule for final approval by the Archivist of the United States. You may elect at [regulations.gov](https://www.regulations.gov) to receive updates on the docket, including an alert when we post the Consolidated Reply, whether or not you submit a comment. If you have a

question, you can submit it as a comment, and can also submit any concerns or comments you would have to a possible response to the question. We will address these items in consolidated replies along with any other comments submitted on that schedule.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at <https://www.archives.gov/records-mgmt/rcs>, after the Archivist approves them. The RCS contains all schedules approved since 1973.

Background

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA’s approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records’ administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government’s activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist’s consideration process.
