Abstract: We collect information on FWS Form 3-2349 (Alaska Guide Service Evaluation) to help us evaluate commercial guide services on our national wildlife refuges in the State of Alaska (State). The National Wildlife Refuge Administration Act of 1966, as amended (16 U.S.C. 668dd-ee), authorizes us to permit uses, including commercial visitor services, on national wildlife refuges when we find the activity to be compatible with the purposes for which the refuge was established. With the objective of making available a variety of quality visitor services for wildlife-dependent recreation on National Wildlife Refuge System lands, we issue permits for commercial guide services, including big game hunting, sport fishing, wildlife viewing, river trips, and other guided activities. We use FWS Form 3-2349 as a method to:

- Monitor the quality of services provided by commercial guides.
- Gauge client satisfaction with the services.
- Assess the impacts of the activity on refuge resources.

The client is the best source of information on the quality of commercial guiding services. We collect:

- Client name.
- Guide name(s).
- Type of guided activity.
- Dates and location of guided activity.

• Information on the services received such as the client's expectations, safety, environmental impacts, and client's overall satisfaction.

We encourage respondents to provide any additional comments that they wish

regarding the guide service or refuge experience, and ask whether or not they wish to be contacted for additional information.

The above information, in combination with State-required guide activity reports and contacts with guides and clients in the field, provides a comprehensive method for monitoring permitted commercial guide activities. A regular program of client evaluation helps refuge managers detect potential problems with guide services so that we can take corrective actions promptly. In addition, we use this information during the competitive selection process for big game and sport fishing guide permits to evaluate an applicant's ability to provide a quality guiding service.

SUPPLEMENTARY INFORMATION: This notice is published in conformance with Sec. 1274(d)(1) of the Wild and Scenic Rivers Act of 1968 (16 U.S.C. 1271-1287). The Owyhee Canyonlands Wilderness and Wild & Scenic Rivers Management Plan establishes the framework for managing approximately 517,000 acres of wilderness and 325 miles of wild and scenic rivers in Owyhee County, southwestern Idaho. The Plan provides direction for actions, land use guidelines and restrictions designed to preserve wilderness character and protect and enhance river values, as mandated by the Wilderness Act (16 U.S.C. 1133(b)) and the Wild and Scenic Rivers Act (16 U.S.C. 1281(a)). The Plan identifies conditions and opportunities that will be managed for at least the next 10 years, or as changes in wilderness character, wild and scenic river values, and/or resource conditions require.

Areas managed by the Plan include: The Big Jacks Creek, Little Jacks Creek, Bruneau-Jarbridge Rivers, North Fork Owyhee, Owyhee River, Pole Creek Wilderness Areas, and the 16 wild and scenic river segments that flow through them.

Public scoping meetings were held in 2011 to inform the public of the regulations and policies associated with wilderness and wild and scenic river management. The BLM solicited input during these meetings, and for several

weeks thereafter, concerning wilderness and wild and scenic river-related issues and concerns, as well as the development of alternatives and management actions proposed for the Plan.

The BLM considered and, where appropriate, incorporated public and internal staff comments on the Draft Plan into the Final Plan. Comments resulted in additional clarifying text, as well as refinement of management direction for some activities.

The final Plan includes limitations on the size of groups rafting the wild and scenic rivers, prescriptions regarding the use of temporary hunting blinds, provisions for trapping under State and Federal regulations, and processes to consider the proposed use of motorized and mechanized vehicles and equipment.

Authority: 16 U.S.C. 1274(d)(1), 43 CFR part 6300.

Boise District Manager.

Twin Falls District Manager.
