Article III

With the exception of those activities identified in Article II.1 through 4, this Agreement may be amended, upon application by the State and approval by the Commission, to include one or more of the additional activities specified in Article II, whereby the State may then exert regulatory authority and responsibility with respect to those activities.

Article IV

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

Accordingly, the Commission and the State agree to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

Article VIII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend all or part of this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that (1) such termination or suspension is required to protect public health and safety, or (2) the State has not complied with one or more of the requirements of Section 274 of the Act.

The Commission may also, pursuant to Section 274j of the Act, temporarily suspend all or part of this Agreement if, in the judgment of the Commission, an emergency situation exists requiring immediate action to protect public health and safety and the State has failed to take necessary steps. The Commission shall periodically review actions taken by the State under this Agreement to ensure compliance with Section 274 of the Act which requires a State program to be adequate to protect public health and safety with respect to the materials covered by this Agreement and to be compatible with the Commission's program.

RAILROAD RETIREMENT BOARD

Sunshine Act; Notice of Public Meeting

Notice is hereby given that the Railroad Retirement Board will hold a meeting on October 14, 2009, 10 a.m. at

That approval is set to expire on March 31, 2010.

Below is a brief summary of the proposed information collection:

Title of Collection: Section 1512 Data Standards.

OMB Control No.: 0430-0004.

Description: The American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5, 123 Stat. 115 (2009)) (the Recovery Act) established the Board and required that the Board establish and maintain a public-facing Web site to track covered funds. Section 1512 of the Recovery Act requires recipients of Federal financial assistance—namely, grants, cooperative agreements, contracts and loans—to report on the use of funds. These reports are to be submitted to FederalReporting.gov, and certain information from these reports will later be posted on the public-facing Web site Recovery.gov. More specifically, prime recipients, sub-recipients, and vendors who receive Recovery Act funds are required to submit section 1512 data elements as set forth in the *Recipient Reporting Data Model* (available electronically at <https://www.federalreporting.gov/federalreporting/downloads.do>). On June 22, 2009, OMB issued the following reporting guidance in its “Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009” (OMB Guidance):

Prime Recipients: The prime recipient is ultimately responsible for the reporting of all data required by section 1512 of the Recovery Act and the OMB Guidance, including the Federal Funding Accountability and Transparency Act (FFATA) data elements for the sub-recipients of the prime recipient required under section 1512(c)(4). In addition, the prime recipient must report three additional data elements associated with any vendors receiving funds from the prime recipient for any payments greater than \$25,000. Specifically, the prime recipient must report the identity of the vendor by reporting the DUNS number, the amount of the payment, and a description of what was obtained in exchange for the payment. If the vendor does not have a DUNS number, then the name and zip code of the vendor’s headquarters will be used for identification.

Sub-Recipients of the Prime Recipient: The sub-recipients of the prime recipient may be required by the prime recipient to report the FFATA data elements required under section 1512(c)(4) for payments from the prime recipient to the sub-recipient. The reporting sub-recipients must also

report one data element associated with any vendors receiving funds from that sub-recipient. Specifically, the sub-recipient must report, for any payments greater than \$25,000, the identity of the vendor by reporting the DUNS number, if available, or otherwise the name and zip code of the vendor’s headquarters.
