SUPPLEMENTARY INFORMATION:

Summary of Information Collection

This information collection is necessary for the Naval Health Research Center (NHRC) to carry out the research study "Evaluation of Young Marines Drug Education Program." Naval Health Research Center has been tasked by U.S. Marine Corps Community Services Substance Abuse Program to conduct this evaluation. The Naval Health Research Center team will collect information about the youth's drug use, attitudes, and knowledge, as well as factors such as self-esteem by administering a voluntary paper-and-pencil survey to approximately 1,000 youth at regularly scheduled Young Marines meetings and by posting an online survey. Approximately 250 of these youth subjects will also complete an online, follow-up survey about three

months later. Approximately 325 Young Marine adult unit leaders will be asked to complete a one-time, online survey about the drug education activities that their unit provides to their Program members. In all cases, consent will always be received prior to survey administration. The information collected will be used to describe how the Young Marines program is affecting drug behaviors and related measures and will allow recommendations to be made to improve youth drug education.
