**Background.**—On June 29, 1999, the Department of Commerce (Commerce) issued an antidumping duty order on imports of certain hot-rolled flat-rolled carbon-quality steel products from Japan (64 FR 34778). Effective July 12, 1999, Commerce suspended the antidumping duty investigation on such imports from Russia (64 FR 38642, July 19, 1999) and, effective July 6, 1999, Commerce suspended the countervailing duty and antidumping duty investigations on such imports from Brazil (64 FR 38792 and 38797, July 19, 1999). Subsequent to the termination of the suspension agreement with respect to the antidumping duty investigation on imports of certain hot-rolled flat-rolled carbon-quality steel products from Brazil (67 FR 6226, February 11, 2002), Commerce issued an antidumping duty order on such imports (67 FR 11093, March 12, 2002). The Commission is conducting reviews to determine whether revocation of the orders and terminations of the suspended investigations would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full reviews or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

**Definitions.**—The following definitions apply to these reviews:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The Subject Countries in these reviews are Brazil, Japan, and Russia.

(3) The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determinations, the Commission found one Domestic Like Product consisting of all hot-rolled steel, as defined in Commerce's scope.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determinations, the Commission defined the Domestic Industry as all producers of hot-rolled steel.

(5) The Order Date is the date that the antidumping duty orders under review became effective and the investigations were suspended. In the reviews concerning the suspended antidumping and countervailing duty investigations and the subsequent antidumping duty order on imports of certain hot-rolled flat-rolled carbon-quality steel products from Brazil, the Order Date is July 6, 1999. In the review concerning the suspended antidumping investigation on imports of certain hot-rolled flat-rolled carbon-quality steel products from Russia, the Order Date is July 12, 1999. In the review concerning the antidumping duty order on imports of certain hot-rolled flat-rolled carbon-quality steel products from Japan, the Order Date is June 29, 1999.
