39 CFR Part 111

Intelligent Mail Package Barcode Compliance Quality

AGENCY: Postal Service™.

ACTION: Proposed rule.

SUMMARY: The Postal Service is proposing to amend *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) to add an additional Intelligent Mail® package barcode (IMpb®) validation under the “Barcode Quality” category.

DATES: Submit comments on or before July 28, 2023.

SUPPLEMENTARY INFORMATION:

Confidentiality

All submitted comments and attachments are part of the public record and subject to disclosure. Do not enclose any material in your comments that you consider to be confidential or inappropriate for public disclosure.

In section 204.2.1.8, *IMpb Compliance Quality Thresholds*, the “Barcode Quality” compliance category checks that the barcode in the manifest passes two critical validations: 1. Valid and Certified Mailer ID in the label that is in Program Registration/Online Enrollment, 2. IMpb must be unique for 120 days.

The Postal Service relies on the accuracy of the IMpb, and the data contained within the barcodes, including Service Type Codes (STCs).

The Postal Service is proposing to add a third validation under “Barcode Quality” that will require that an IMpb must include a valid, unique 3-digit STC that accurately represents the mail class, product, and service combination on the physical label affixed to the package. Additionally, the IMpb on the package must also correspond with electronic package level details and Extra Services Code(s) contained within the Shipping Services File (SSF). Any variance in the data presented in the electronic submission of a parcel or a variance with the physical aspect of the label affixed to a parcel presented for mailing will be subject to the IMpb noncompliance fee if a mailer falls below the 98 percent threshold.

The Postal Service is proposing to implement this change effective October 1, 2023.

We believe the proposed revision will ensure the IMpb quality enabling the Postal Service to provide customers with a more efficient mailing experience.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C.

553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.
