

the Commercial Trollers Salmon Stamp; stocking of steelhead from the Mad River Hatchery into the Mad River Basin; CDFG's Aquarium in the Classroom program; stocking actions to support scientific research; and stocking done under an existing private stocking permit or to be completed under a new permit with terms similar to one that was issued in the last 4 years. The Fishing in the City and Classroom Aquarium Education Programs will continue under uniform protocols developed to ensure that stocking locations are properly screened to protect native, sensitive, and legally protected species.

Continuation of Existing Program Alternative

The Continuation of Existing Program Alternative (equivalent to the CEQA No Project Alternative) is continuation of SFRA funding for the existing Fish Hatchery and Stocking Program. The hatcheries' operation and stocking activities undertaken by CDFG over the past 5 years would continue unchanged (some activities may be inconsistent with the court-ordered prohibitions and exceptions), and the SFRA funding process for these activities will continue as it has over the same period.

No Action Alternative

Under the No Action Alternative, FWS would not approve SFRA grant funds to be used by CDFG to support actions associated with operations of the CDFG Fish Hatchery and Stocking Program. Because of State statutory and public trust requirements related to the hatchery program, CDFG would attempt to continue to implement its State hatchery program, seeking other funding sources to replace the Federal funds.
