AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before June 15, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: By Public Notice released January 10, 2017, The Incentive

Auction Task Force and Media Bureau Release Transition Progress Report Form and Filing Requirements for Stations Eligible for Reimbursement from the TV Broadcast Relocation Fund and Seek Comment on the Filing of the Report by Non-Reimbursable Stations, MB Docket No. 16-306, Public Notice, 32 FCC Rcd 256 (IATF/Med. Bur. 2017). The Incentive Auction Task Force and Media Bureau described the information that must be provided in the adopted FCC Form 2100, Schedule 387 (Transition Progress Report Form) to be filed by Reimbursable Stations and when and how the Transition Progress Reports must be filed. We also proposed to require broadcast television stations that are not eligible to receive reimbursement of associated expenses from the Reimbursement Fund (Non-Reimbursable Stations), but must transition to new channels as part of the Commission's channel reassignment plan, to file progress reports in the same manner and on the same schedule as Reimbursable Stations, and sought comment on that proposal. By Public Notice released May 18, 2017, The Incentive Auction Task Force and Media Bureau Adopt Filing Requirements for the Transition Progress Report Form by Stations That Are Not Eligible for Reimbursement from the TV Broadcast Relocation Fund, MB Docket No. 16-306, Public Notice, DA 17-484 (rel. May 18, 2017) (referred to collectively with Public Notice cited above as Transition Progress Report Public Notices). We concluded that Non-Reimbursable Stations will be required to file Transition Progress Reports following the filing procedures adopted for Reimbursable Stations.

The Commission is seeking a three-year extension for this information collection from the Office of Management and Budget (OMB) approval for FCC Form 2100, Schedule 387 (Transition Progress Report).

On March 15, 2019, the Commission adopted a First Report and Order, in ET Docket No. 18-21; FCC 19-19, which updates a section of Part 5 of the CFR—Experimental Radio Service (ERS). The Commission recent R&O adopts a new subpart to the existing part 5 rules for a new and unique license type—the Spectrum Horizons Experimental Radio license (or "Spectrum Horizons License"). Specifically, the Spectrum Horizons License will be available for experiments and demonstrations of equipment designed to operate exclusively on any frequency above 95 GHz.

Sec. 5.59 Forms To Be Used

(a) *Application for conventional, program, medical, compliance testing, and Spectrum Horizons experimental radio licenses.* (1) *Application for new authorization or modification of existing*

authorization. Entities must submit FCC Form 442.

Sec. 5.77 Change in Equipment and Emission Characteristics

(a) The licensee of a conventional, broadcast, or Spectrum Horizons experimental radio station may make any changes in equipment that are deemed desirable or necessary provided:

* * *

(b) For conventional or Spectrum Horizons experimental radio stations, the changes permitted in paragraph (a) of this section may be made without prior authorization from the Commission provided that the licensee supplements its application file with a description of such change. If the licensee wants these emission changes to become a permanent part of the license, an application for modification must be filed.

Sec. 5.121 Station Record Requirements

(a)(1) For conventional, program, medical testing, compliance testing experimental radio stations, the current original authorization or a clearly legible photocopy for each station shall be retained as a permanent part of the station records but need not be posted. Station records are required to be kept for a period of at least one year after license expiration.

(a)(2) For Spectrum Horizons experimental radio stations, the licensee is solely responsible for retaining the current authorization as a permanent part of the station records but need not be posted. Station records are required to be kept for a period of at least one year after license expiration.

Sec. 5.702 Licensing Requirement—Necessary Showing

Each application must include a narrative statement describing in detail how its experiment could lead to the development of innovative devices and/or services on frequencies above 95 GHz and describe, as applicable, its plans for marketing such devices. This statement must sufficiently explain the proposed new technology/potential new service and incorporate an interference analysis that explains how the proposed experiment would not cause harmful interference to other services. The statement should include technical details, including the requested frequency band(s), maximum power, emission designators, area(s) of operation, and type(s) of device(s) to be used.

Sec. 5.703 Responsible Party

(a) Each Spectrum Horizons experimental radio applicant must identify a single point of contact responsible for all experiments conducted under the license and ensuring compliance with all applicable FCC rules.

(b) The responsible individual will serve as the initial point of contact for all matters involving interference resolution and must have the authority to discontinue any and all experiments being conducted under the license, if necessary.

(c) The license application must include the name of the responsible individual and contact information at which the person can be reached at any time of the day; this information will be listed on the license. Licensees are required to keep this information current.

Sec. 5.704 Marketing of Devices Under Spectrum Horizons Experimental Radio Licenses

Unless otherwise stated in the instrument of authorization, devices operating in accordance with a Spectrum Horizons experimental radio license may be marketed subject to the following conditions:

(a) Marketing of devices (as defined in § 2.803 of this chapter) and provision of services for hire is permitted before the radio frequency device has been authorized by the Commission.

(b) Licensees are required to ensure that experimental devices are either rendered inoperable or retrieved by them from trial participants at the conclusion of the trial. Licensees are required to notify experiment participants in advance of the trial that operation of the experimental device is subject to this condition.

Each device sold under this program must be labeled as “Authorized Under An Experimental License and May be Subject to Further Conditions Including Termination of Operation” and carry a licensee assigned equipment ID number.

(c) The size and scope of operations under a Spectrum Horizons experimental license are subject to limitations as the Commission shall establish on a case-by-case basis.

Sec. 5.705 Interim Report

Licensee must submit to the Commission an interim progress report 5 years after grant of its license. If a licensee requests non-disclosure of

proprietary information, requests shall follow the procedures for submission set forth in § 0.459 of this chapter.

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination—on the dates indicated—of the waiting period provided by law and the premerger notification rules. The listing for each transaction includes the transaction number and the parties to the transaction. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.
