SUPPLEMENTARY INFORMATION: The document describes four management alternatives for Big Thicket National Preserve, including a no-action alternative and the National Park Service preferred alternative. The anticipated environmental impacts of those alternatives are also analyzed. *Alternative 1*, the no-action alternative, would extend existing conditions and management trends into the future. This alternative serves as a basis of comparison for evaluating the action alternatives. *Alternative 2*, the NPS preferred alternative, would support a broad ecosystem approach for preserve management using partnerships and collaboration. This alternative recognizes the challenges associated with management of cross-boundary resource issues and the importance of

encouraging partnerships to address and resolve resource issues. The National Park Service would proactively engage in regional planning and policy efforts for the benefit of resource protection, compatible visitor use, and other issues both within and outside the preserve boundaries. Initiatives that advance the long-term protection of the preserve's natural resources would receive the primary focus of management attention and funding. Appropriate visitor uses and experiences would also be improved and expanded. Preserve staff would expand and encourage new partnership agreements with outside public and private organizations. *Alternative 3* would emphasize natural resource preservation and research while providing self-reliant recreational opportunities. *Alternative 4* would seek to increase the importance of the preserve and the National Park Service to the people in the communities of southeast Texas and to visitors from all over the world. INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–805]

Certain Devices for Improving Uniformity Used in a Backlight Module and Components Thereof and Products Containing Same; Commission Decision To Review in Part a Final Initial Determination on Remand Finding No Violation of Section 337 and on Review To Affirm With Modification; Termination of Investigation With a Finding of No Violation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to review-in-part the presiding administrative law judge's ("ALJ") final initial determination on remand ("Remand ID") issued on February 28, 2013, finding no violation of section 337 of the Tariff Act of 1930, (as amended), 19 U.S.C. 1337 ("section 337"), in the above-captioned investigation, and on review, to affirm the Remand ID's finding of no violation of section 337

with modification. The investigation is terminated.

Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–2000. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on September 14, 2011, based on a complaint filed by Industrial Technology Research Institute of Hsinchu, Taiwan and ITRI International Inc. of San Jose, California (collectively "ITRI"). 76 FR 56796–97 (Sept. 14, 2011). The complaint alleges violations of section 337 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain devices for improving uniformity used in a backlight module and components thereof and products containing same by reason of infringement of certain claims of U.S. Patent No. 6,883,932 ("the '932 patent"). The complaint further alleges the existence of a domestic industry. The Commission's notice of investigation named as respondents LG Corporation of Seoul, Republic of Korea; LG Electronics, Inc. of Seoul, Republic of Korea; and LG Electronics, U.S.A., Inc. of Englewood Cliffs, New Jersey. The Office of Unfair Import Investigations was named as a participating party. The complaint was later amended to add respondents LG Display Co., Ltd. of Seoul, Republic of Korea and LG Display America, Inc. of San Jose, California to the investigation. Notice (Feb. 2, 2012); Order No. 11 (Jan. 19, 2012). The Commission later terminated LG Corporation from the investigation. Notice (July 13, 2012); Order No. 18 (June 22, 2012).

On October 22, 2012, the ALJ issued his final initial determination ("Final

ID"), finding no violation of section 337 as to the '932 patent. The ID included the ALJ's recommended determination ("RD") on remedy and bonding. In particular, the ALJ found that claims 6, 9 and 10 of the '932 patent are not infringed literally or under the Doctrine of Equivalents by the accused products under his construction of the claim limitation "structured arc sheet" found in claim 6. The ALJ also found that ITRI's domestic industry product does not satisfy the technical prong of the domestic industry requirement. The ALJ did find, however, that ITRI has satisfied the economic prong of the domestic industry requirement under 19 U.S.C. 1337(a)(3)(A) and (B). Because he found no infringement and no domestic industry, the ALJ did not reach the issues of patent validity or enforceability. In the event the Commission found a violation of section 337, the ALJ recommended that the appropriate remedy is a limited exclusion order barring entry of LG's infringing products. The ALJ also recommended issuance of cease and desist orders against LG Electronics USA and LG Display America. The ALJ further recommended that LG be required to post a bond of one percent of the entered value of each infringing product during the period of Presidential review.

On November 5, 2012, ITRI filed a petition for review of certain aspects of the Final ID. Also on November 5, 2012, participating respondents LG Electronics, Inc., LG Electronics U.S.A., Inc., LG Display Co., Ltd., and LG Display America, Inc. (collectively "LG") filed a contingent petition for review of certain aspects of the ID. No post-RD statements on the public interest pursuant to Commission Rule 210.50(a)(4) or in response to the post-RD Commission Notice issued on October 24, 2012, were filed. *See* 77 FR 65579 (Oct. 29, 2012).

On December 21, 2012, the Commission determined to review the Final ID in its entirety and to remand-in-part to the ALJ to consider the issues of invalidity and patent unenforceability. 77 FR 77092–7093 (Dec. 31, 2012). On January 29, 2013, the Commission determined not to review an ID (Order No. 22) extending the target date for completion of the investigation by four months to June 28, 2013. *See* Notice (Jan. 29, 2013); Order No. 22 (Jan. 9, 2013).

On February 28, 2013, the ALJ issued his Remand ID, finding no violation of section 337. In particular, the ALJ found that the asserted claims of the '932 patent are invalid as anticipated under 35 U.S.C. 102. He further found that the
