

exchange is the complete record of an exchange's transactions that is provided in the core data feeds.<sup>25</sup> In this respect, the core data feeds that include an exchange's own transaction information are a significant alternative to the exchange's market data product.<sup>26</sup> The various self-regulatory organizations, the several Trade Reporting Facilities of FINRA, and ECNs that produce proprietary data are all sources of competition.

In sum, there are a variety of alternative sources of information that impose significant competitive pressures on NYSE Amex in setting the terms for distributing its NYSE Amex Market Data. The Commission believes that the availability of those alternatives, as well as NYSE Amex's compelling need to attract order flow, imposed significant competitive pressure on NYSE Amex to act equitably, fairly, and reasonably in setting the terms of its proposal.

Because NYSE Amex was subject to significant competitive forces in setting the terms of the proposal, the Commission will approve the proposal in the absence of a substantial countervailing basis to find that its terms nevertheless fail to meet an applicable requirement of the Act or the rules thereunder. An analysis of the proposal does not provide such a basis.

## V. Conclusion

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>27</sup> that the proposed rule change (SR-NYSEAmex-2010-35) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>28</sup>

Deputy Secretary.

Hon. Nancy Pelosi, Speaker of the House of Representatives

Dear Madam Speaker: Pursuant to Sections 36(c) and 36(d) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed amendment to a manufacturing license agreement for the manufacture of significant military equipment abroad and the export of firearms abroad in the amount of \$1,000,000 or more.

The transaction contained in the attached certification involves the transfer of defense articles, to include technical data, and defense services to South Korea, Qatar, United Arab Emirates, United Kingdom, the Netherlands, Thailand, Chile, and Malaysia for the manufacture and sale of the Goalkeeper Gun Mount.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.
