BILLING CODE 7537-01-P

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

National Endowment for the Arts; National Council on the Arts 152nd Meeting

Pursuant to section 10 (a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the National Council on the Arts will be held from July 14-16, 2004.

The Council will meet in closed session on July 14th, from 6:30 p.m. to 9 p.m. at the St. Regis Hotel, 923 16th St., NW., Washington, DC 20006, and on July 15th from 2 p.m. to 4 p.m. in Room 527 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506 for discussion of National Medal of Arts nominations. In accordance with the determination of the Chairman of April 14, 2004, these sessions will be closed to the public pursuant to subsection (c)(4), (6) and (9)(B) of section 552b of title 5, United States Code.

The remainder of meeting, from 9 a.m. to 12:30 p.m. on July 16th, will be held in Room M-09 at the Nancy Hanks Center and will be open to the public on a space available basis. Following opening remarks and announcements, there will be a presentation on *Operation Homecoming*, including a presentation by guest author Marilyn Nelson. This will be followed by an NEA Research Report on Public Participation in Literature. A presentation on NEA/State and Regional Partnerships, led by Senior Deputy Chairman Eileen Mason, will feature: "Tog" Newman, Chair of the North Carolina Arts Council and past Chair of the National Assembly of State Arts Agencies (NASAA); Robert Booker, Executive Director of the Minnesota State Arts Board and current Chair of NASAA; David Fraher, Executive Director of Arts Midwest; and Jonathan Katz, Executive Director of NASAA. Other topics will include: application review for National Leadership Initiatives, NEA Jazz Masters Fellowships, and Literature Fellowships/Translation; review of guidelines for Literature Translation Projects; and general discussion.

If, in the course of the open session discussion, it becomes necessary for the

Council to discuss non-public commercial or financial information of intrinsic value, the Council will go into closed session pursuant to subsection (c)(4) of the Government in the Sunshine Act, 5 U.S.C. 552b.

Additionally, discussion concerning purely personal information about individuals, submitted with grant applications, such as personal biographical and salary data or medical information, may be conducted by the Council in closed session in accordance with subsection (c) (6) of 5 U.S.C. 552b.

Any interested persons may attend, as observers, Council discussions and reviews that are open to the public. If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, (202) 682-5532, TTY-TDD (202) 682-5429, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from the Office of Communications, National Endowment for the Arts, Washington, DC 20506, at (202) 682-5570.

Dated: June 16, 2004.

Kathy Plowitz-Worden,

Panel Coordinator, Office of Guidelines and Panel Operations.

NEIGHBORHOOD REINVESTMENT CORPORATION

Sunshine Act Meeting

TIME AND DATE: 10 a.m.-Friday, June 25, 2004.

PLACE: Neighborhood Reinvestment Corporation, 1325 G Street, NW., Suite 800, Washington, DC 20005.

STATUS: Open.

CONTACT PERSON FOR MORE INFORMATION: Jeffrey T. Bryson, General Counsel/Secretary, 202-220-2372; jbryson@nw.org.

Agenda

- I. Call to Order
- II. Approval of Minutes: March 15, 2004, Regular Meeting
- III. Election of Vice Chairman
- IV. Personal Committee Report
- V. Election of Officers
- VI. Board of Appointments
 - a. Internal Audit Director
 - b. Assistant Secretary
- VII. Committee Appointments
 - a. Audit Committee
 - b. Finance and Budget Committee
 - c. Corporate Administration Committee
- VIII. Audit Committee Report
- IX. Treasurer's Report

- X. NeighborWorks® Marketing and Visibility—"Doing Business As"
- XI. Fundraising Policies and Procedures
- XII. Executive Directors Quarterly Management Report
- XII. Adjournment

Jeffrey T. Bryson,

General Counsel-Secretary.

BILLING CODE 7570-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 03033288]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for Pittsburgh Environmental Research Laboratory, Inc.'s Facility in Pittsburgh, PA

AGENCY: Nuclear Regulatory Application.

ACTION: Notice of availability of environmental assessment and finding of no significant impact.

FOR FURTHER INFORMATION CONTACT:

Ronald G. Rolph, Nuclear Materials Safety Branch 2, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania, 19406, telephone (610) 337-5347, fax (610) 337-5269; or by e-mail: rgr@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Pittsburgh Environmental Research Laboratory, Inc. for Materials License No. 37-30070-01, to authorize release of its facility in Pittsburgh, Pennsylvania for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this notice.

II. EA Summary

The purpose of the proposed action is to authorize the release of the licensee's Pittsburgh, Pennsylvania facility for unrestricted use. Pittsburgh Environmental Research Laboratory, Inc. was authorized by NRC since 1993 to use radioactive materials for research and development and sample analysis purposes at the site. On April 30, 2004,

Pittsburgh Environmental Research Laboratory, Inc. requested that NRC release the facility for unrestricted use. Pittsburgh Environmental Research Laboratory, Inc. has conducted surveys of the facility and determined that the facility meets the license termination criteria in subpart E of 10 CFR part 20. The NRC staff has prepared an EA in support of the proposed license amendment.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the proposed license amendment to terminate the license and release the facility for unrestricted use. The NRC staff has evaluated Pittsburgh Environmental Research Laboratory, Inc.'s request and the results of the surveys and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has found that the environmental impacts from the proposed action are bounded by the impacts evaluated by the "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (NUREG-1496). The staff has also found that the non-radiological impacts are not significant. On the basis of the EA, the NRC has concluded that the environmental impacts from the proposed action are expected to be insignificant and has determined not to prepare an environmental impact statement for the proposed action.

IV. Further Information

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Nos. ML041320153 and ML041610224). The public document room (PDR) reproduction contractor will copy documents for a fee. These documents are also available for inspection and copying for a fee at the Region I Office, 475 Allendale Road, King of Prussia, Pennsylvania, 19406. Persons who do not have access to ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or (301) 415-4737, or by e-mail to pdr@nrc.gov.

Dated at King of Prussia, Pennsylvania, this 16th day of June, 2004.

For the Nuclear Regulatory Commission.
John D. Kinneman,
*Chief, Nuclear Materials Safety Branch 2,
 Division of Nuclear Materials Safety, Region I.*

NUCLEAR REGULATORY COMMISSION

Notice of Availability of Model Application Concerning Technical Specifications Improvement To Eliminate Requirements to Provide Monthly Operating Reports and Occupational Radiation Exposure Reports Using the Consolidated Line Item Improvement Process

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model safety evaluation (SE), a model no significant hazards consideration (NSHC) determination, and a model license amendment application relating to a change in the technical specifications (TS) to eliminate requirements to provide monthly operating reports and occupational radiation exposure reports. The purpose of these models is to permit the NRC to efficiently process amendments that propose to incorporate this change into plant-specific TS. Licensees of nuclear power reactors to which the models apply may request amendments utilizing the model application.

DATES: The NRC staff issued a **Federal Register** notice (69 FR 23542) on April 29, 2004, which proposed a model SE and a model NSHC determination related to changing plant TSs by eliminating requirements to provide monthly operating reports and occupational radiation exposure reports. The NRC staff hereby announces that the enclosed model SE and NSHC determination may be referenced in plant-specific applications. The NRC staff has posted a model application on the NRC web site to assist licensees in using the consolidated line item improvement process (CLIIP) to incorporate this change. The NRC staff can most efficiently consider applications based upon the model application if the application is submitted within a year of this **Federal Register** notice.

FOR FURTHER INFORMATION CONTACT:

William Reckley, Mail Stop: O-7D1, Division of Licensing Project

Management, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone 301-415-1323.

SUPPLEMENTARY INFORMATION:

Background

Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specifications Changes for Power Reactors," was issued on March 20, 2000. The CLIIP is intended to improve the efficiency of NRC licensing processes. This is accomplished by processing proposed changes to the standard TSs (STS) in a manner that supports subsequent license amendment applications. The CLIIP includes an opportunity for the public to comment on proposed changes to the STS following a preliminary assessment by the NRC staff and finding that the change will likely be offered for adoption by licensees. The CLIIP directs the NRC staff to evaluate any comments received for a proposed change to the STS and to either reconsider the change or to proceed with announcing the availability of the change for proposed adoption by licensees. Those licensees opting to apply for the subject change to TS are responsible for reviewing the staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable rules and NRC procedures.

This notice involves changes to plant TS to eliminate requirements to submit monthly operating reports and occupational radiation exposure reports. This proposed change was proposed for incorporation into the STS by the industry's Technical Specification Task Force as TSTF-369, Revision 1.

Applicability

This proposed change to eliminate requirements to submit monthly operating reports and occupational radiation exposure reports is applicable to all nuclear power reactors.

The CLIIP does not prevent licensees from requesting an alternative approach or proposing the changes without referencing the model SE and the NSHC. Variations from the approach recommended in this notice may, however, require additional review by the NRC staff and may increase the time and resources needed for the review.

Public Notices

In a notice in the **Federal Register** dated April 29, 2004 (69 FR 23542), the
