FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Information Collection Activities: Proposed Revision of Information Collection; National Survey of Unbanked and Underbanked Households; Comment Request

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice and request for comment.

SUMMARY: The FDIC, as part of its continuing effort to reduce paperwork and respondent burden and as required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), invites the general public and other Federal agencies to comment on the survey collection instrument for its second National Survey of Unbanked and Underbanked Households ("Household Survey"), currently approved under OMB Control No. 3064-0167, scheduled to be conducted in partnership with the U.S. Census Bureau as a supplement to its June 2011 Current Population Survey ("CPS"). The collection is a key component of the FDIC's efforts to comply with a Congressional mandate contained in section 7 of the Federal Deposit Insurance Reform Conforming Amendments Act of 2005 ("Reform Act") (Pub. L. 109-173), which calls for the FDIC to conduct ongoing surveys "on efforts by insured depository

institutions to bring those individuals and families who have rarely, if ever, held a checking account, a savings account or other type of transaction or check cashing account at an insured depository institution (hereafter in this section referred to as the 'unbanked') into the conventional finance system." Section 7 further instructs the FDIC to consider several factors in its conduct of the surveys, including: (1) "What cultural, language and identification issues as well as transaction costs appear to most prevent 'unbanked' individuals from establishing conventional accounts"; and (2) "what is a fair estimate of the size and worth of the 'unbanked' market in the United States." The household survey is designed to address these factors and provide a factual basis on the proportions of unbanked households. Such a factual basis is necessary to adequately assess banks' efforts to serve these households as required by the statutory mandate.

To satisfy the Congressional mandate, the FDIC designed two complementary surveys: a survey of FDIC-insured depository institutions and a survey of households. The first survey of FDIC-insured depository institutions, aimed at collecting data on their efforts to serve underbanked, as well as unbanked, populations (underbanked populations include individuals who have an account with an insured depository but also rely on non-bank alternative financial service providers for transaction services or high cost credit products), was conducted in mid-2007, with the results released in February 2008. The first survey of unbanked and underbanked households was conducted in January 2009 as a CPS supplement and the results were released to the public in December 2009. The household survey sought to estimate the proportions of unbanked and underbanked households in the U.S. and to identify the factors that inhibit the participation of these households in the mainstream banking system. The results of these ongoing surveys will help policymakers and bankers understand the issues and challenges underserved households perceive when deciding how and where to conduct financial transactions. This notice addresses the next Household Survey.

SUPPLEMENTARY INFORMATION: The FDIC is considering possible revisions to the following collection of information:

Title: National Unbanked and Underbanked Household Survey.

OMB Number: 3064-0167.

Frequency of Response: Once.

Affected Public: U.S. Households.

Estimated Number of Respondents: 50,000.

Average time per response: 10 minutes (0.166 hours) per respondent.

Estimated Total Annual Burden: 0.166 hours × 50,000 respondents = 8,334 hours.

General Description of Collection

A mandate in section 7 of the Reform Act requires the FDIC to conduct ongoing surveys on efforts by banks to bring unbanked individuals and families into the conventional finance system. Section 7 further instructs the FDIC to consider several factors in its conduct of the surveys, including the size of the unbanked market in the United States and the cultural, language and identification issues as well as transaction costs that appear to most prevent unbanked individuals from establishing conventional accounts. To obtain this information, the FDIC partnered with the U.S. Census Bureau, which administered the Household Survey supplement ("FDIC
