

G. Regulatory Reform Analysis Under E.O. 13771

Executive Order 13771, entitled “Reducing Regulation and Controlling Regulatory Costs,” was issued on January 30, 2017 (82 FR 9339, February 3, 2017) and requires that the costs associated with significant new regulations “shall, to the extent permitted by law, be offset by the elimination of existing costs associated with at least two prior regulations.” It has been determined that this proposed rule is an action that primarily results in transfers and does not impose more than de minimis costs as described above and thus is not a regulatory or deregulatory action for the purposes of Executive Order 13771.

H. Conclusion

We estimate that aggregate payments to hospices in FY 2021 will increase by \$580 million, or 2.6 percent, compared to payments in FY 2020. We estimate that in FY 2021, hospices in urban areas will experience, on average, 2.6 percent increase in estimated payments compared to FY 2020. While hospices in rural areas will experience, on average, 2.8 percent increase in estimated payments compared to FY 2020. Hospices providing services in the Middle Atlantic region would experience the largest estimated increases in payments of 3.0 percent. Hospices serving patients in areas in the New England and Outlying regions would experience, on average, the lowest estimated increase of 1.7 percent and 1.8 percent, respectively in FY 2021 payments.
