[Project No., 14376-000]

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On March 23, 2012, Cave Run Energy, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project located at the U.S. Army Corps of Engineers' (Corps) Cave Run Dam, located on the Licking River in Rowan and Bath Counties, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A bifurcation structure constructed at the end of the dam's outlet conduit; (2) a powerhouse containing two turbine/generating units with a total capacity of 6.0 megawatts; (3) a 70-foot-long, 150 inch-diameter steel penstock; (4) a 1,200-foot-long, 12.7-kilovolt (kV) transmission line. The proposed project would have an average annual generation of 34,164 megawatt-hours (MWh), and operate utilizing surplus water from the Cave Run Dam, as directed by the Corps.

Applicant Contact: Mr. Mark Boumansour, Cave Run Energy, LLC, 1035 Pearl Street 4th Floor, Boulder, CO 80302. (720) 295-3317.
