BILLING CODE 7036-01-M

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 19, "Notices, Instructions, and Reports to Workers: Inspection and Investigations."

2. *Current OMB approval number:* 3150-0044.

3. *How often the collection is required:* As necessary in order that adequate and timely reports of radiation exposure be made to individuals involved in NRC-licensed activities.

4. *Who is required or asked to report:* Licensees authorized to receive, possess, use, or transfer material licensed by the NRC.

5. *The number of annual respondents:* 4,650.

6. *The number of hours needed annually to complete the requirement or request:* 35,674 hours (4,553 reporting (approximately 17.78 hours per response) and (31,121 recordkeeping hours (approximately 6.69 hours per recordkeeper)).

7. *Abstract:* Title 10 of the Code of Federal Regulations, part 19, requires licensees to advise workers on an annual basis of any radiation exposure they may have received as a result of NRC-licensed activities or when certain conditions are met. These conditions apply during termination of the worker's employment, at the request of a worker, former worker, or when the worker's employer (the NRC licensee) must report radiation exposure information on the worker to the NRC. Part 19 also establishes requirements for instructions by licensees to individuals participating in licensed activities and options available to these individuals in connection with Commission inspections of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, Title II of the Energy Reorganization Act of 1974, and regulations, orders and licenses thereunder regarding radiological working conditions.

The worker should be informed of the radiation dose he or she receives because: (a) That information is needed by both a new employer and the individual when the employee changes jobs in the nuclear industry; (b) the individual needs to know the radiation dose received as a result of an accident or incident (if this dose is in excess of the 10 CFR Part 20 limits) so that he or she can seek counseling about future work involving radiation, medical attention, or both, as desired; and (c) since long-term exposure to radiation may be an adverse health factor, the individual needs to know whether the accumulated dose is being controlled within NRC limits. The worker also needs to know about health risks from occupational exposure to radioactive

materials or radiation, precautions or procedures to minimize exposure, worker responsibilities and options to report any licensee conditions which may lead to or cause a violation of Commission regulations, and individual radiation exposure reports which are available to him.

Submit, by August 2, 2004, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC World Wide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail to infocollects@nrc.gov.

Dated in Rockville, Maryland, this 27th day of May, 2004.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of

continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR Part 39—Licenses and Radiation Safety Requirements for Well Logging.

2. *Current OMB approval number:* 3150-0130.

3. *How often the collection is required:* Applications for new licenses and amendments may be submitted at any time. Applications for renewal are submitted every 10 years. Reports are submitted as events occur.

4. *Who will be required or asked to report:* Applicants for and holders of specific licenses authorizing the use of licensed radioactive material for radiography.

5. *The estimated number of annual respondents:* 161 (35 NRC licensees and 126 Agreement State licensees).

6. *The number of hours needed annually to complete the requirement or request:* 34,933 hours. The NRC licensees total burden is 7,594 hours (111 reporting hrs plus 7,483 recordkeeping hrs). The Agreement State licensees total burden is 27,339 hours (405 reporting hrs plus 26,934 recordkeeping hrs). The average burden per response for both NRC licensees and Agreement State licensees is 3.2 hours, and the burden per recordkeeper is 214 hours.

7. *Abstract:* 10 CFR part 39 establishes radiation safety requirements for the use of radioactive material in well logging operations. The information in the applications, reports and records is used by the NRC staff to ensure that the health and safety of the public is protected and that licensee possession and use of source and byproduct material is in compliance with license and regulatory requirements.

SECURITIES AND EXCHANGE COMMISSION

Issuer Delisting; Notice of Application of Espirito Santo Overseas Limited and Banco Espirito Santo, S.A., To Withdraw Its Non-Cumulative Guaranteed Preference Shares, Series B, \$25 par value, From Listing and Registration on the New York Stock Exchange, Inc.; File No. 1-12524

May 27, 2004.

On May 21, 2004, Espirito Santo Overseas Limited, S.A., a Cayman Islands corporation ("Issuer"), and Banco Espirito Santo, S.A., a Portugal corporation ("Guarantor"), filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 12d2-2(d) thereunder,² to withdraw its Non-Cumulative Guaranteed Preference Shares, Series B, \$25 par value, ("Security"), from listing and registration on the New York Stock Exchange, Inc. ("NYSE" or "Exchange").

The Board of Directors ("Board") of the Issuer adopted a resolution on April 29, 2004 to withdraw the Issuer's Security from listing on the NYSE. The Board states that the following reasons factored into its decision to withdraw the Security: (i) The limited trading volume of the Security (the Issuer and the Guarantor have determined, based

on conversations with the NYSE and information derived from third-party databases, that the average daily trading volume of the Security on the NYSE in the six months immediately preceding April 29, 2004 was less than 2,000 shares); (ii) the limited number of holders of record of the Security (the Issuer and the Guarantor have been informed by The Bank of New York, which acts as registrar, transfer agent and paying agent for the Security, that the worldwide number of holders of record of the Security as of December 31, 2003 was 69); and (iii) the costs associated with continued listing of the Security on the NYSE, including costs associated with compliance with the applicable reporting and other requirements of the Commission.

The Issuer stated in its application that it has complied with the NYSE's rules governing an issuer's voluntary withdrawal of a security from listing and registration. The Issuer's application relates solely to the Security's withdrawal from listing on the NYSE, and from registration under Section 12(b) of the Act,³ and shall not affect its obligation to be registered under Section 12(g) of the Act.⁴

Any interested person may, on or before June 21, 2004, comment on the facts bearing upon whether the application has been made in accordance with the rules of the NYSE and what terms, if any, should be imposed by the Commission for the protection of investors. All comment letters may be submitted by either of the following methods:
