Decision To Evaluate a Petition To Designate a Class of Employees at the Rocky Flats Plant, Golden, CO, To Be Included in the Special Exposure Cohort

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice.

SUMMARY: The Department of Health and Human Services (HHS) gives notice as required by 42 CFR 83.12(e) of a decision to evaluate a petition to designate a class of employees at the Rocky Flats Plant, in Golden, Colorado, to be included in the Special Exposure Cohort under the Energy Employees Occupational Illness Compensation Program Act of 2000. The initial proposed definition for the class being evaluated, subject to revision as warranted by the evaluation, is as follows:

Facility: Rocky Flats Plant.
Location: Golden, Colorado.
Job Titles and/or Job Duties: All
represented members, past, present, and
current, of USWA Local 8031 and its
predecessors.

Period of Employment: April 1952 to February 15, 2005.

### FOR FURTHER INFORMATION CONTACT:

Larry Elliott, Director, Office of Compensation Analysis and Support, National Institute for Occupational Safety and Health, 4676 Columbia Parkway, MS C–46, Cincinnati, OH 45226, Telephone 513–533–6800 (this is not a toll-free number). Information requests can also be submitted by e-mail to OCAS@CDC.GOV.

Vessel Sanitation Program; Notice of Revision and Implementation of the Vessel Sanitation Program Operations Manual

**AGENCY:** Centers for Disease Control and Prevention, Department of Health and Human Services.

**ACTION:** Notice.

**SUMMARY:** This notice announces the revision and implementation of the Vessel Sanitation Program Operations Manual. The manual will become effective on August 1, 2005.

### FOR FURTHER INFORMATION CONTACT: David Forney, Chief, Vessel Sanitation Program, Division of Emergency and Environmental Health Services (EEHS), National Center for Environmental

Health (NCEH), telephone (770) 488–7333 or e-mail *DForney@cdc.gov*.

## SUPPLEMENTARY INFORMATION:

## **Purpose and Background**

The Vessel Sanitation Program (VSP) is a cooperative activity between the cruise ship industry and the Centers for Disease Control and Prevention (CDC), Public Health Service, U.S. Department of Health and Human Services. The purpose and goals of VSP are to achieve and maintain a level of sanitation that will lower the risk for gastrointestinal diseases and will assist the cruise ship industry in its efforts to provide a healthful environment for passengers and crew.

### Comments

In 2003, CDC announced plans to revise the *Vessel Sanitation Operations Manual, November 2000*. Input and comments requested and received from the cruise ship industry, private sanitation consultants, other Federal

agencies, and other interested parties were discussed in detail at a public meeting held in Fort Lauderdale, Florida, on April 27, 2004. On the basis of comments received, VSP staff drafted a third revised manual that was discussed at a public meeting held in Fort Lauderdale on August 23-26, 2004. Input from the cruise ship industry was critical of this document. VSP revised the document and incorporated the comments received from the cruise ship industry, private sanitation consultants, and other interested parties who attended the public meetings or submitted comments in writing. A final draft of the VSP Operations Manual, 2005 was put on the VSP Web site (http://www.cdc.gov/nceh/vsp) and was presented to attendees at the VSP annual public meeting held in Fort Lauderdale on April 26, 2005.

VSP acknowledges the helpful participation and the input of the cruise ship industry, private sanitation consultants, and other interested parties throughout the revision process. Major input for this document was provided by the International Council of Cruise Lines (ICCL), which represents the 16 largest passenger cruise lines that call on major ports in the U.S. and abroad.

# Implementation and Transition for the VSP Operations Manual, 2005

The VSP Operations Manual, 2005 will become effective on August 1, 2005. At that time, the VSP Environmental Health Officers will begin using the new manual and inspection report when they conduct their routine operational inspections.

For one year or for two routine inspections, whichever comes first, VSP staff will document deficiencies that indicate noncompliance with the 2005 operations manual. However, no points will be deducted for failure to meet the revised provisions in the 2005 manual. During the phase-in period, these deficiencies will be cited with a star on the inspection report, and no points will be deducted so that corrective actions can be taken.

One example of the new requirements in the 2005 manual is that hand wash sinks with the electronic sensors that cannot be user-adjusted have a maximum water temperature of 52 °C (125 °F). The VSP Operations Manual, 2000 required only a minimum water temperature for the sinks with the sensors. For the first year or for two routine inspections, whichever comes first, inspectors will document water temperatures above the maximum at the handwash sinks with the sensors, but the item will be cited with a star on the inspection report, and no points will be deducted.

### **Applicability**

The VSP Operations Manual is applicable to all passenger cruise vessels that have international itineraries and that call on U.S. Ports.

### Availability

Final copies of the VSP Operations Manual, 2005 can be found on the VSP Web site at http://www.cdc.gov/nceh/vsp; by contacting Stephanie Lawrence, Program Management Assistant for the Vessel Sanitation Program, Centers for Disease Control and Prevention (CDC), Mail stop F23, 4770 Buford Highway NE., Atlanta, GA 30341–3274; or by email at SLawrence1@cdc.gov. Requests may also be sent to vsp@cdc.gov.

Dated: June 24, 2005.

# Administration for Children and Families

### Submission for OMB Review; Comment Request

Title: Evaluation of the Improving Child Welfare Outcome Through Systems of Care Grant Program.

OMB No.: New Collection.

Description: The 1994 Amendments to the Social Security Act (SSA) authorize the U.S. Department of Health and Human Services to review State child and family service programs to ensure conformance with the requirements in titles IV—B and IV—E of

the SSA. Under the Final Rule, which took effective March 25, 2000, States are assessed for substantial conformity with certain Federal requirements for childwelfare services. The Child and Family Service Reviews (CFSR), administered by the Children's Bureau, are designed to ensure conformity with Federal childwelfare requirements and, ultimately, to help States improve child-welfare services and outcomes, specifically safety, permanency, and well-being outcomes for child-welfare involved children and their families. States determined not to have achieved substantial conformity in any of the areas assessed are required to develop and implement program improvement plans (PIP) addressing the areas of nonconformity.

The Systems of Care grant cluster, from which these data are proposed to be collected, is designed to encourage public child-welfare agencies to address the issues identified in their state's CFSR. Although Systems of Care has shown promise in working with various at-risk and family populations, it has not been applied to a child-welfare target population. The data collected from these demonstration sites will allow the Children's Bureau to test whether this approach can help States reach the goals stated in their program improvement plans and explore how child welfare can benefit from being part of a system of care. Data will be collected via interviews, forms completed by project staff, surveys, focus groups and case file reviews. Data also will be collected to determine the extent to which the Technical Assistance (TA) provided, brokered or contracted by the TA and Evaluation Center is meeting the needs of the grantees, and how.

### Respondents

- Systems of Care Project Directors;
- Members of the Systems of Care collaborative (may include representatives from mental health, juvenile justice, education, health, among others);
- Child-welfare agency supervisors and caseworkers;
  - Partner agency caseworkers; and
- Families who have been involved with the child-welfare system.

### ANNUAL BURDEN ESTIMATES

Instrument	Number of re- spondents	Number of responses per respondent	Average bur- den hours per response (minutues)	Total burden hours (hours)
Stakeholder Survey	240	51 items	.29	59
Child-Welfare Agency Survey	1440	72 items	.29	501
