SUPPLEMENTARY INFORMATION:

Executive Summary—Purpose of the Regulatory Action

The Pension Benefit Guaranty Corporation (PBGC) is proposing to amend certain regulations governing its multiemployer program to make the provision of information to PBGC and plan participants more efficient and effective. This rule is needed to reduce burden on multiemployer plans and sponsors and to facilitate potentially beneficial plan merger transactions. The rule would reduce burden by allowing certain small terminated but not insolvent plans to provide valuations less frequently, easing reporting requirements for plan sponsors contemplating a merger transaction, and streamlining and removing certain notice requirements for insolvent plans.¹ These requirements impose administrative costs and reduce plan assets that could otherwise be used to fund plan benefits.

PBGC's legal authority for this regulatory action comes from section 4002(b)(3) of the Employee Retirement Income Security Act of 1974 (ERISA), which authorizes PBGC to issue regulations to carry out the purposes of title IV of ERISA; section 4041A(f)(2), which gives PBGC authority to prescribe reporting requirements for terminated plans; section 4231(a), which gives PBGC authority to prescribe regulations setting the requirements for one or more multiemployer plans to merge; and section 4281(d), which directs PBGC to prescribe by regulation the notice requirements to plan participants and beneficiaries in the event of a benefit suspension.

Executive Summary—Major Provisions of the Regulatory Action

Annual Valuations

When a multiemployer plan terminates, the plan must perform an annual valuation of the plan's assets and benefits. This proposed rule would allow valuations for plans that were terminated by mass withdrawal but are not insolvent and where the value of nonforfeitable benefits is \$25 million or

¹ Under 29 CFR 4041A.2, "insolvent" means that a plan is unable to pay benefits when due during the plan year.
