### Federal Aviation Administration

#### **Intent To Prepare an Environmental Assessment; Panama City-Bay County International Airport; Panama City, FL**

**AGENCY:** Federal Aviation  
Administration, DOT.

**ACTION:** Notice of intent.

**SUMMARY:** The Federal Aviation  
Administration (FAA) is issuing this  
notice to advertise to the public that an  
Environmental Assessment (EA) will be  
prepared to consider alternatives to  
meet forecast growth in aviation

demand in the Panama City-Bay County  
region.

**FOR FURTHER INFORMATION CONTACT:** Ms.  
Virginia Lane, Federal Aviation  
Administration, Orlando Airports  
District Office, 5950 Hazeltine National  
Drive, Suite 400, Orlando, FL 32822-  
5024, 407/812-6331, Extension 29.

**SUPPLEMENTARY INFORMATION:** The FAA  
intends to prepare an Environmental  
Assessment (EA) to address  
environmental and related impacts  
expected to be associated with meeting  
forecast growth in aviation demand in  
the Panama City-Bay County region.

The EA will be developed, prepared,  
and processed such that it can be  
converted to an Environmental Impact  
Statement (EIS) in a timely fashion,  
should the EA indicate that the project  
will likely result in significant  
environmental impacts and that a  
Finding of No Significant Impact  
(FONSI) is not appropriate.

The Panama City-Bay County  
International Airport (PFN), owned and  
operated by the Panama City-Bay  
County Airport and Industrial District,  
is located approximately five miles  
northwest of the central business district  
of Panama City, Florida. PFN has two  
150-foot wide runways, Runway 5-23  
and Runway 14-32. Runway 5-23  
measures 4,888 feet in length and is  
primarily used by general aviation  
aircraft. Runway 14-32, with a length of  
6,304 feet, serves as the primary runway  
for commercial airline service at PFN.

During the 1990's, an Environmental  
Assessment was initiated to consider  
alternatives to provide an 8,000-foot  
runway at PFN. This study  
recommended an extension of Runway  
14-32 to the northwest into Goose  
Bayou to provide additional runway  
length. However, the proposed runway  
extension would have environmental  
impacts to Class II waters that are  
protected under state law. Due to  
opposition to the runway extension, the  
Environmental Assessment was deferred  
in 1998.

With support from the Federal  
Aviation Administration (FAA) and the  
Florida Department of Transportation  
(FDOT), the Panama City-Bay County  
International Airport Authority initiated  
an effort to study the feasibility of  
relocating or expanding the airport  
facilities in 1999. The Airport  
Feasibility Study resulted in a  
determination that relocation of the  
airport was technically feasible.

This Environmental Assessment (EA)  
will include evaluation of a no action  
alternative and other reasonable  
alternatives that may be identified

during the agency and public scoping  
meetings.

**Public Scoping:** Although formal  
scoping is not required for an EA, public  
and agency scoping sessions will be  
conducted at the initiation of the EA.  
This action is being conducted to help  
to identify the scope of issues to be  
addressed, assist in the identification of  
alternatives, and aid in the  
identification of any potentially  
significant issues related to the  
proposed action.

The FAA will hold a scoping meeting  
to solicit input from Federal, State, and  
local agencies which have jurisdiction  
by law or have a specific expertise with  
respect to any environmental impacts  
associated with the project. In addition,  
a public scoping meeting will be held  
and the public may submit written  
comments on the scope of the  
environmental study to the address  
identified in the **FOR FURTHER  
INFORMATION CONTACT** paragraph. A  
separate Public Notice will be issued to  
provide the date, time and place of the  
scoping meetings and the period for  
written comments.

Questions may be directed to the  
individual named above under the  
heading **FOR FURTHER INFORMATION  
CONTACT**.

Issued in Orlando, Florida, October 30,  
2001.

Office.*
