FOR FURTHER INFORMATION CONTACT: Mr. Dan Waldeck, Pacific Fishery Management Council, (503) 326–6352.

SUPPLEMENTARY INFORMATION: A workshop will be held to review market squid stock assessment methods. The workshop is, in part, to address disapproved provisions in the Council's Coastal Pelagic Species (CPS) Fishery Management Plan (FMP); specifically, maximum sustainable yield (MSY) for market squid. Since the development of the FMP, research conducted on squid life history along with enhanced fishery data (port sampling and logbooks) have provided significant new information. A principal goal of the stock assessment review (STAR) is to integrate the ongoing squid research into the Council's CPS FMP. Terms of reference for the STAR Panel address the MSY issue as well as control rules for practical management of the squid fishery.
