Background and Purpose

On October 6, 2008, CSREES held a stakeholder listening session on Smith-Lever 3(d) IPM restructuring due to changes found in section 7403 of the FCEA (see http://www.csrees.usda.gov/business/reporting/stakeholder/eipm_stakeholder.html). Changes to Smith-Lever 3(d) funding include: (1) The requirement for a competitive program delivery model as opposed to a long-standing formula-based delivery model; and (2) the inclusion of 1890 Institutions and the University of the District of Columbia as eligible entities to receive 3(d) funds. The primary intent of the listening session was to gather stakeholder input on program focus and design. Prior to the listening

session, National Program Leaders presented stakeholders with the following questions:

1. What should be the primary goals and objectives of the program?
2. How can CSREES funding be optimized?
3. Should there be a limit on the number of proposals that can be submitted by each eligible institution?
4. What criteria should be used in the proposal review and selection process?
5. Should regional, multi-institutional or multi-state proposals be encouraged?
6. Should proposals addressing gaps in current program coverage (organic, small farms, etc.) be given greater emphasis in the evaluative process?
7. What limits should be set on funding and project duration?

The written comment period ran from October 6 through November 15, 2008. Over 400 written comments were received. A written summary of the comments is available at http://www.csrees.usda.gov/business/reporting/stakeholder/eipm_stakeholder.html. Contained in the comments are many areas with broad agreement among stakeholders. For instance, from both verbal and written comments, it was clear that stakeholders felt the most critical issue was making the fiscal year 2009 funds available as soon as possible, which the Agency responded to by promptly issuing the EIPM–CS RFA and proceeding with the competition on a compressed schedule.

Efforts were made to incorporate suggestions from the October 6, 2008, Listening Session into the FY 2009 EIPM–CS program as allowable by law. It was felt, however, that additional input could help structure the program for future years. The March 2009, Listening Session is scheduled to assist CSREES leadership in more fully addressing stakeholder needs.

Implementation Plans

CSREES plans to consider stakeholder input received from this public meeting as well as other written comments in developing the FY 2010 program guidelines. CSREES anticipates releasing the FY 2010 Request for Applications (RFA) by mid July 2009.

Done at Washington, DC, this 17th day of March 2009.

Colien Hefferan,

Administrator, Cooperative State Research, Education, and Extension Service.
