An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal Plant and Health Inspection Service

Title: Swine Health Protection.

OMB Control Number: 0579–0065.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The AHPA is contained in Title X, Subtitle E, Sections 10401–18 of P.O. 107–171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. Veterinary Services, a program with the Animal and Plant Health Inspection Service (APHIS), is responsible for administering regulations intended to prevent the dissemination of animal diseases within the United States. Garbage is one of the primary media through which numerous infections or communicable diseases of swine are transmitted. Because of the serious threat to the U.S. swine industry, Congress passed Public Law 96–468 “Swine Health Protection Act” on October 17, 1980. This law requires USDA to ensure that all garbage is treated prior to its being fed to swine that are intended for interstate or foreign commerce or that substantially affect such commerce. The Act and the regulations will allow only operators of garbage treatment facilities, which meet certain specification to utilize garbage for swine feeding. APHIS will use various forms to collect information.

Need and Use of the Information: APHIS collects information from persons desiring to obtain a permit (license) to operate a facility to treat garbage. Prior to issuance of a license, an inspection will be made of the facility by an authorized representative to determine if it meets all requirements of the regulations. Periodic inspections will be made to determine if licenses are meeting the standards for operation of their approved facilities. Upon receipt of the information from the Animal Health Officials, the information is used by Federal or State animal health personnel to determine whether the

waste collector is feeding garbage to swine, whether it is being treated, and whether the feeder is licensed or needs to be licensed.

Description of Respondents: Business or other for profit; State, Local or Tribal Government.

Number of Respondents: 15,500.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 1,742,601.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency’s estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by September 22, 2023 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: USDA Professional Standards Training Tracker Tool (PSTTT).

OMB Control Number: 0584–0626.

Summary of Collection: Section 306 of the Healthy Hunger-Free Kids Act of 2010 (HHFKA) requires Professional Standards for state and local school district nutrition professionals. In addition to hiring standards, mandatory annual training will be required for all individuals involved in preparing school meals. To meet the training requirements and assist in keeping track of training and training courses, FNS has developed a web-based application tool with a SQL-server database which is available to local educational agencies and school food authorities through the FNS public website. While training requirements are mandatory, using the USDA PSTTT to track the training is voluntary. State and local school district nutrition professionals can use any method to track and manage their trainings. These resources facilitate compliance with HHFKA requirements and are provided at no cost to the state, district, or school nutrition professionals.

Need and Use of the Information: State and school nutrition professionals can use the PSTTT to keep track of their training courses, learning objectives, and training hours, in accordance with HHFKA requirements. State reviewers can run reports from the PSTTT that they can use in preparation for Administrative Reviews that are conducted onsite at the school food authorities.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 10,006.

Frequency of Responses: Reporting: On occasion; Quarterly; Annually; Weekly; Monthly.

Total Burden Hours: 17,090.

[Docket No. APHIS–2023–0028]

Swine Vesicular Disease Status of the Regions of Tuscany and Umbria, Italy

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we are proposing to recognize the regions of Tuscany and Umbria, Italy as being free of swine vesicular disease. This proposed recognition is based on a risk evaluation we have prepared in connection with this action, which we are making available for review and comment.

DATES: We will consider all comments that we receive on or before October 23, 2023.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to www.regulations.gov. Enter APHIS–2023–0028 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS–2023–0028, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Dr. Chip Wells, Senior Veterinary Medical Officer, Regionalization Evaluation Services (RES), Strategy & Policy, Veterinary Services, APHIS, 4700 River Road, Unit 38, Riverdale, MD 20737–1231; (301) 851–3317; email: AskRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 94 (referred to below as the regulations) govern the importation of certain animals and animal products into the United States in order to prevent the introduction of various animal diseases, including swine vesicular disease (SVD). This is a dangerous and communicable disease of swine.

Within part 94, § 94.12 contains requirements governing the importation of pork or pork products from regions where SVD exists. Section 94.14 prohibits the importation of domestic swine that are moved from or transit any region in which SVD is known to exist.

In accordance with § 94.12(a)(1), the Animal and Plant Health Inspection Service (APHIS) maintains a web-based

list of regions which the Agency considers free of SVD. Paragraph (a)(2) of this section states that APHIS will add a region to this list after it conducts an evaluation of the region and finds that SVD is not present.

The regulations in § 92.2 contain requirements for requesting the recognition of the animal health status of a region (as well as for the approval of the export of a particular type of animal or animal product to the United States from a foreign region). If, after review and evaluation of the information submitted in support of the request, APHIS believes the request can be safely granted, APHIS will make its evaluation available for public comment through a document published in the **Federal Register**. Following the close of the comment period, APHIS will review all comments received and will make a final determination regarding the request that will be detailed in another document published in the **Federal Register**.

The Government of Italy has requested that APHIS evaluate the SVD disease status of the regions of Tuscany and Umbria. In response to Italy's request, we have prepared an evaluation, titled "APHIS Evaluation of Toscana and Umbria, Italy for Swine Vesicular Disease" (November 2022).¹ Based on the evaluation, we have determined that the regions of Tuscany and Umbria, Italy are free of SVD. APHIS has also determined that the surveillance, prevention, and control measures implemented by Italy are sufficient to minimize the likelihood of introducing SVD into the United States via imports of species or products susceptible to these diseases. Our determination supports adding the regions of Tuscany and Umbria, Italy to the web-based list of regions that APHIS considers free of SVD.

Therefore, in accordance with § 92.2(g), we are announcing the availability of our evaluation of the SVD status of the regions of Tuscany and Umbria, Italy for public review and comment. We are also announcing the availability of an environmental assessment (EA), which has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provision of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). The evaluation and EA may be

¹ Tuscany and Toscana are equivalent.

viewed on the Regulations.gov website or in our reading room. (Instructions for accessing Regulations.gov and information on the location and hours of the reading room are provided under the heading ADDRESSES at the beginning of this notice.) The documents are also available by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

Information submitted in support of Italy's request is available by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

After reviewing any comments we receive, we will announce our decision regarding the disease status of the regions of Tuscany and Umbria, Italy with respect to SVD in a subsequent notice.

Authority: 7 U.S.C. 1633, 7701–7772, 7781–7786, and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

Done in Washington, DC, this 17th day of August 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2023–0044]

Addition of the Republic of Ecuador and the Republic of Peru to the List of Regions Affected With Highly Pathogenic Avian Influenza

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we added the Republic of Ecuador and the Republic of Peru to the list of regions that the Animal and Plant Health Inspection Service considers to be affected by highly pathogenic avian influenza (HPAI). These actions follow our imposition of HPAI-related restrictions on avian commodities originating from or transiting the Republic of Ecuador and the Republic of Peru, as a result of the confirmation of HPAI in these countries.

DATES: The Republic of Ecuador and the Republic of Peru were added to the list of regions APHIS considers to be affected with HPAI, effective respectively on December 3, 2022, and December 12, 2022.

FOR FURTHER INFORMATION CONTACT: Dr. La'Toya Lane, APHIS Veterinary
