Commission staff will consider all timely comments received during the comment period on the draft EIS and revise the document, as necessary, before issuing a final EIS. Any EA or draft and final EIS will be available in electronic format in the public record through eLibrary² and the Commission's natural gas environmental documents web page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). If eSubscribed, you will receive instant email notification when the environmental document is issued.

With this notice, the Commission is asking agencies with jurisdiction by law and/or special expertise with respect to the environmental issues of this project to formally cooperate in the preparation of the environmental document.³ Agencies that would like to request cooperating agency status should follow the instructions for filing comments provided under the *Public Participation* section of this notice.

The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and/or amendments to terminate uses. Any distribution, sale, or use of the products

subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations and certain use terminations are effective November 1, 2021.

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the June 23, 2021 **Federal Register** notice (86 FR 32922) announcing the Agency's receipt of the requests for voluntary cancellations and/or amendments to terminate uses of products listed in Tables 1 and 2 of Unit II.

IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)), EPA hereby approves the requested cancellations and/or amendments to terminate uses of the registrations identified in Tables 1 and 2 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II are canceled and/or amended to terminate the affected uses. The effective date of the cancellations and amendments listed in Tables 1 and 2 that are the subject of this notice is November 1, 2021. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 of Unit II in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI will be a violation of FIFRA.

V. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of June 23, 2021 (86 FR 32922) (FRL–10025–04). The comment period closed on July 23, 2021.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation and/or use termination action. The existing stocks provisions for the products subject to this order are as follows.

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit II until November 1, 2022, which is 1 year

after the publication of the cancellation/ use termination order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal.

EPA has recently approved or will shortly approve product labels reflecting the requested amendments to terminate uses listed in Table 2 of Unit II and is allowing registrants to continue to sell or distribute products under the previously approved labeling for a period of 18 months from the label approval date. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal. Amended product labels can be viewed on EPA's Pesticide Product Label System (see <https://www.epa.gov/pesticide-labels/pesticide-product-label-system-ppls-more-information>).

Needs and Uses: On August 16, 2013, the Federal Communications Commission (Commission) released a Third Report and Order (FCC 13–115) in MM Docket No. 93–177 to harmonize and streamline its rules regarding tower construction near AM stations. The reforms included establishing a single protection scheme for tower construction and modification near AM tower arrays. The Commission’s rules previously contained several sections in different rule parts that addressed tower construction near AM antennas and were intended to protect AM stations from the effects of such tower construction, including (among others not relevant here), 47 CFR 22.371. With adoption of this Order, 47 CFR 22.371 was removed and was replaced by a new rule, 47 CFR 1.30002, which is not covered by this Supporting Statement.

On November 10, 2014, the Commission released a Report and Order and Further Notice of Proposed Rulemaking (FCC 14–181) in WT Docket No. 12–40 to reform its rules governing the 800 MHz Cellular Radiotelephone (Cellular) Service. In the Report and Order (Cellular R&O), the Commission changed the Cellular licensing model from site-based to geographic-based. The revised Cellular Service licensing model entailed eliminating several filing requirements that had outlived their usefulness in this mature commercial wireless service that was launched in the early 1980s; it also streamlined application content requirements, and deleted obsolete provisions associated with the legacy site-based regime.

Subsequently, on March 24, 2017, the Commission released a Second Report and Order in that same docket (Cellular Second R&O), together with a companion Report and Order in WT Docket No. 10–112 concerning the Wireless Radio Services (WRS), which include the Cellular Service among others (WRS R&O) (FCC 17–27). The Cellular Second R&O and WRS R&O
