This is also notice of the draft section 401 Certification provided by the State of Idaho.

SUPPLEMENTARY INFORMATION:

EXECUTIVE ORDER 12866: The Office of Management and Budget has exempted this action from the review

requirements of Executive Order 12866 pursuant to Section 6 of that order.

Regulatory Flexibility Act: Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, a Federal agency must prepare an initial regulatory flexibility analysis "for any proposed rule" for which the agency "is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking." The RFA exempts from this requirement any rule that the issuing agency certifies "will not, if promulgated, have a significant economic impact on a substantial number of small entities." EPA has concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that this general permit, as issued, will not have a significant economic impact on a substantial number of small entities.

Dated: January 11, 2010.

Christine Psyk,

Associate Director, Office of Water & Watersheds, Region 10.
