SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 250, Subpart O, Training.

OMB Control Number: 1010-0078.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended, 43 U.S.C. 1334(e), gives the Secretary of the Interior (Secretary) the responsibility to preserve, protect, and develop oil and gas resources in the OCS in a manner which is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resources development with protection

of human, marine, and coastal environments; ensure the public a fair and equitable return on resources of the OCS; and preserve and maintain free enterprise competition. Section 1332(6) of the OCS Lands Act requires that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health." This authority and responsibility are among those delegated to MMS. To carry out these responsibilities, MMS issues regulations governing oil and gas or sulphur operations in the OCS.

The MMS uses the information collected under subpart O to ensure that certain workers in the OCS are properly trained in the use of equipment and procedures in drilling, well-completion, well-workover, and well-servicing well control operations and production safety system operations in order to avoid hazards inherent in those operations. This information is necessary to verify personnel training compliance with the requirements. Specifically, MMS uses the information to:

- Evaluate new programs and curriculum changes for technical accuracy and ensure that the programs incorporate appropriate instruction, simulation, and hands-on training activities.
- Review attendance records to verify that a student has attended the entire course before issuance of a certificate.
- Schedule MMS onsite evaluations and audits of training organizations.
- Ensure that personnel are trained in order to maintain a state of preparedness essential for safe operations.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 250.196. We will protect personal information such as social security numbers according to the Privacy Act. No items of a sensitive nature are collected. Responses are mandatory.

The PRA provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. We published a **Federal Register** notice
