Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Occupational Safety and Health Act (Osh Act) Variance Regulations information collection. The OSH Act allows a covered employer to apply for four (4) different types of variances from the requirements of OSH Act standards. An employer submits a variance application that specifies an alternative means of complying with the requirements of applicable standards to the Agency. The OSHA has developed an information collection for four different optional-use forms (Forms OSHA–5–30–1, OSHA–5–30–2, OSHA–5–30–3, and OSHA–5–30–4) that employers might use as templates in applying for variances. While use of the forms is optional, employers are required to submit an application that includes all elements specified in regulations 29 CFR part 1905 in order to receive consideration for a variance. This information collection has been classified as a revision, because the OSHA is including Web-based variance application forms in this submission. OSH Act sections 2(b)(9), 6, 8(c), and 16 authorize this information collection. See 29 U.S.C. 651(b)(9), 655, 657(c), and 665.

This information collection is subject to the PRA. A Federal agency generally

cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218–0265. The current approval is scheduled to expire on March 31, 2015; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 20, 2014 (79 FR 49342).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218–0265. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
