#### Transmittal No. 01-04

## Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act (U)

### Annex Item No. vi

## (vi) Sensitivity of Technology:

- 1. The AN/SWG-1A HARPOON Ship Command Launch Control System (HSCLCS) uses target position data to compute a fire control solution for missile launch. It includes equipment for monitoring and controlling HARPOON missile launching and for performing maintenance and training procedures. The AN/SWG-1A provides capabilities such as automatic engagement planning, waypoint options, off-axis launch, salvo select options, and background ship avoidance. The HSCLCS contains sensitive technology and has the following classified components, including applicable technical and equipment documentation and manuals:
  - (1) HARPOON control console
  - (2) HSCLCS embedded trainer
- 2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
- 3. A determination has been made that Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
