SUPPLEMENTARY INFORMATION:**I. Abstract**

The National Wildlife Refuge Administration Act of 1966, as amended (16 U.S.C. 668dd-ee), authorizes us to permit uses, including commercial visitor services, on national wildlife refuges only when we find the activity to be compatible with the purposes for which the refuge was established. With the objective of making available a variety of quality visitor services for wildlife dependent recreation on National Wildlife Refuge System lands, we issue permits for commercial guide services, including big game hunting, sport fishing, wildlife viewing, river trips, and other guided activities. We plan to use FWS Form 3-2349 (Alaska Guide Service Evaluation) as a method to:

- (1) Monitor the quality of services provided by commercial guides.
- (2) Gauge client satisfaction with the services.
- (3) Assess the impacts of the activity on refuge resources.

The client is the best source of information on the quality of commercial guiding services. The information that we plan to collect, in combination with required guide activity reports and contacts with guides and clients in the field, provides a comprehensive method for monitoring permitted commercial guide activities. A regular program of client evaluation will help refuge managers detect potential problems with guide services

so that corrective actions can be taken promptly. In addition, we will use this information during the competitive selection process for big game and sport fishing guides to evaluate an applicant's ability to provide a quality guiding service.

We will provide the evaluation form to clients by one of several methods:

- (1) The refuge may mail the form to the clients of big game guides using contact information provided by the guides as required under their permits.
- (2) On websites of refuges where guide services are permitted.
- (3) Upon request.
