

that airspace will be redefined in a future Offshore Airspace action.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Because this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it creates Class E airspace sufficient in size to contain aircraft executing instrument procedures for the Port Clarence CGS Airport and represents the FAA’s continuing effort to safely and efficiently use the navigable airspace.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9U, *Airspace Designations and Reporting Points*, dated August 18, 2010, and effective September 15, 2010, is amended as follows:

* * * * *

Paragraph 6005 Class E Airspace Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AAL AK E5 Port Clarence, AK [New]

Port Clarence CGS Airport, AK
(Lat. 65°15′13″ N., long. 166°51′28″ W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Port Clarence CGS Airport, AK, and within 1.5 miles either side of the 180° bearing from the Port Clarence CGS Airport, extending from the 6.4-mile radius to 13.2 miles south of the Port Clarence CGS Airport; and that airspace extending upward from 1,200 feet above the surface within a 73-mile radius of the Port Clarence CGS Airport, AK, excluding that portion extending outside the Anchorage Arctic CTA/FIR boundary.

Issued in Anchorage, AK, on September 16, 2010.

Michael A. Tarr,

Manager, Alaska Flight Services Information Area Group.

14 CFR Part 71

[Docket No. FAA–2010–0588 Airspace
Docket No. 10–AAL–16]

Revision of Class E Airspace; Tanana, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises Class E airspace at Tanana, AK. The amendment of Standard Instrument Approach Procedures (SIAPs) at Ralph M. Calhoun Memorial Airport has made this action necessary to enhance safety by ensuring that sufficient airspace exists for air traffic management of Instrument Flight Rules (IFR) operations.

DATES: Effective 0901 UTC, November 18, 2010. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order

7400.9 and publication of conforming amendments.

Internet address: http://www.faa.gov/about/offices/headquarters/offices/ato/service_units/systemops/fs/alaskan/rulemaking/.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, July 6, 2010, the FAA published a notice of proposed rulemaking in the **Federal Register** to revise Class E airspace at the Ralph M. Calhoun Memorial Airport, Tanana, AK (75 FR 38753).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received.

The Class E airspace areas designated as 700/1,200 ft. transition areas are published in paragraph 6005 of FAA Order 7400.9U, *Airspace Designations and Reporting Points*, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by revising Class E airspace at Ralph M. Calhoun Memorial Airport, in Tanana, AK, to accommodate amended SIAPs at Ralph M. Calhoun Memorial Airport. This Class E airspace provides adequate controlled airspace upward from 700 feet and 1,200 feet above the surface for the safety of IFR operations at Ralph M. Calhoun Memorial Airport by ensuring that Class E airspace is sufficient for management of air traffic.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Because this is a routine matter that will

only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it revises Class E airspace at Ralph M. Calhoun Memorial Airport, Tanana, AK, and represents the FAA's continuing effort to safely and efficiently use the navigable airspace.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9U, *Airspace Designations and Reporting Points*, dated August 18, 2010, and effective September 15, 2010, is amended as follows:

* * * * *

Paragraph 6005 Class E Airspace Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AAL AK E5 Tanana, AK [Revised]

Ralph M. Calhoun Memorial Airport, AK
(Lat. 65°10'28" N., long. 152°06'34" W.)
Tanana VOR/DME

(Lat. 65°10'38" N., long. 152°10'39" W.)
Bear Creek NDB

(Lat. 65°10'26" N., long. 152°12'22" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Ralph M. Calhoun Memorial Airport, AK, and within 4 miles north and 8 miles south of the 250° bearing from the Bear Creek NDB extending from the Bear Creek NDB to 16 miles west of the Bear Creek NDB, and within 1.4 miles north of the Tanana VOR/DME 276° radial extending from the 6.4-mile radius to 8.8 miles west of the airport; and that airspace extending upward from 1,200 feet above the surface within a 73-mile radius of the Ralph M. Calhoun Memorial Airport, AK.

Issued in Anchorage, AK, on September 30, 2010.

Michael A. Tarr,

Manager, Alaska Flight Services Information Area Group.

[Docket No. FAA–2010–0119 Airspace
Docket No. 10–AAL–6]

Revision of Class E Airspace; Unalakleet, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises Class E airspace at Unalakleet, AK. The amendment and development of two (each) Standard Instrument Approach Procedures (SIAPs), and the development of one Obstacle Departure Procedure (ODP) at the Unalakleet Airport have made this action necessary to enhance safety by ensuring that sufficient Class E airspace exists for air traffic management of Instrument Flight Rules (IFR) operations.

DATES: Effective 0901 UTC, January 13, 2011. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On Thursday, June 10, 2010, the FAA published a notice of proposed rulemaking in the **Federal Register** to revise Class E airspace at Unalakleet, AK (75 FR 32865).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received.

There was an error in the notice of proposed rulemaking regarding the E5 airspace coordinates for the Unalakleet VOR/DME. This error has been corrected in the final rule. The coordinates for the Unalakleet airport have been updated from those used in previous airspace revisions made in 1996 and 1998 as a result of more accurate survey data now available. With the exception of editorial changes, and the changes described above, this rule is the same as that proposed in the NPRM.

The Class E airspace areas designated as a surface area for an airport are published in paragraph 6002 of FAA Order 7400.9U, *Airspace Designations and Reporting Points*, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace areas designated as 700/1,200 ft. transition areas are published in paragraph 6005 of FAA Order 7400.9U, *Airspace Designations and Reporting Points*, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by enlarging Class E5 airspace at the Unalakleet Airport, Unalakleet, AK, to accommodate a new departure procedure, and 2 new and amended SIAPs at Unalakleet Airport. The new SIAPs and the amendments to existing SIAPs require that the orientation and dimensions of Class E airspace be revised for the safety and efficiency of management of air IFR traffic.

The revised Class E airspace provides adequate controlled airspace upward from the surface, and from 700 and 1,200 feet above the surface for the safety of IFR operations at Unalakleet Airport by ensuring that Class E airspace is sufficient for management of air traffic.
