Agency Compliance Assistance Activity Plan Inventory: Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA or Agency) is seeking comment on its draft Annual Compliance Assistance Activity Plan Inventory (Plan Inventory) for fiscal year 2002. EPA's fiscal year commences October 1, 2001 and ends on September 30, 2002. The draft Plan Inventory catalogues compliance assistance activities proposed throughout the Agency for fiscal year 2002, and provide a single source for stakeholders to access the information. The Agency is seeking stakeholder input on the content, type and scope of projects contained in the draft Plan Inventory. EPA intends to use this feedback in the fiscal year 2002 budget development process.

DATES: Comments must be submitted on or before August 13, 2001.

ADDRESSES: Interested persons may review the draft Annual Compliance Assistance Activity Plan Inventory from the National Compliance Assistance Clearinghouse, at www.epa.gov/clearinghouse.

FOR FURTHER INFORMATION CONTACT:

Comments can be sent to Joanne Berman, (202) 564-7064; e-mail at berman.joanne@epa.gov; or by mail at US Environmental Protection Agency, Office of Compliance, Mail Code 2224A, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The draft Plan Inventory reflects EPA's commitment to help entities comply with regulatory requirements and improve environmental performance through compliance assistance. Compliance assistance includes activities, tools, or technical assistance that provides clear and consistent information for: (1) Helping the regulated community understand and meet its obligations under environmental regulations; or (2) compliance assistance providers to aid the regulated community in complying with environmental regulations.

The comprehensive approach of the Plan Inventory allows interested stakeholders to understand the Agency's current compliance assistance priorities and activities and to suggest where tools or additional emphasis are still needed. The consolidated information will also assist compliance assistance providers in determining how to focus their resources without duplicating EPA's efforts. Additionally, the regulated community will be able to anticipate what compliance assistance will be available to them in the near future.

The draft fiscal year 2002 Plan Inventory continues the coordinated, intra-agency planning that marked the first Compliance Assistance Activity Plan, fiscal year 2001, published April 2001. Stakeholder comments played a significant role in the development of the fiscal year 2001 Plan. To better assist the Agency, EPA would particularly welcome comments addressing the following issues:

1. What are the most important environmental or regulatory problems where the EPA should focus its compliance assistance efforts?
2. What type of compliance assistance would be most useful and effective at addressing the environmental or regulatory problems identified above? What entities should EPA direct that assistance toward?
3. What activities suggest opportunities for collaboration between EPA and other compliance assistance

providers? How might that collaboration work?

4. Are any of EPA's compliance assistance activities unnecessary or duplicative of other efforts? Which ones? Why?

The Agency looks to stakeholder comments to influence the directions in which we focus our compliance assistance resources. The Agency is committed to using stakeholder comments as we continuously improve the way we do business.

Dated: June 19, 2001.

Michael M. Stahl,

Director, Office of Compliance.

Notice of Availability of National Management Measures To Control Nonpoint Source Pollution From Forestry and Request for Comments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and request for comment.

SUMMARY: EPA has developed and is requesting comment on draft technical guidance for managing nonpoint source pollution from forestry. This guidance is intended to provide technical assistance to State program managers and others on the best available, economically achievable means of reducing nonpoint source pollution of surface and ground water from forestry. The guidance provides background information about nonpoint source pollution from forestry, including where it comes from and how it enters the Nation's waters. It discusses the broad concepts of assessing and addressing water quality problems on a watershed level, and it presents up-to-date technical information about how to reduce nonpoint source pollution from forestry.

Reviewers should note that the draft technical guidance is entirely consistent with the Guidance Specifying Management Measures for Sources of Nonpoint Pollution in Coastal Water (EPA 840-B-92-002), which EPA published in January 1993 under the authority of section 6217(g) of the Coastal Zone Act Reauthorization Amendments of 1990 (CZARA). The draft document does not supplant or replace the requirements of the 1993 document. It enhances the technical information contained in the 1993
