SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-58114; File No. SR-NASD-2007-041]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc. (f/k/a National Association of Securities Dealers, Inc.); Notice of Filing of Amendment No. 2 to Proposed Rule Change To Amend the Minimum Price-Improvement Standards Set Forth in NASD Interpretive Material (IM) 2110-2

July 7, 2008.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 26, 2008, the Financial Industry Regulatory Authority, Inc. ("FINRA") (f/k/a National Association of Securities Dealers, Inc. ("NASD"))³ filed with the

Securities and Exchange Commission ("SEC" or "Commission") Amendment No. 2 to SR-NASD-2007-041 as described in Items I, II, and III below, which Items have been substantially prepared by FINRA.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change, as modified by Amendment No. 2, from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

FINRA proposes to amend the proposed rule change to address an inconsistency in the application of the proposed minimum price-improvement standards. The text of the proposed rule change is available on FINRA's Web site (<http://www.finra.org>), at FINRA's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of the Proposed Rule Change

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On June 27, 2007, FINRA filed with the Commission SR-NASD-2007-041, proposing amendments to the minimum price-improvement provisions in IM-2110-2 ("original proposal"). On August 28, 2007, the Commission published for comment the proposed rule change in the **Federal Register**.⁵ The Commission received one commenter letter on the proposed rule change.⁶ On November 1, 2007, FINRA submitted a response letter to the Commission.⁷ On May 20, 2008, FINRA filed with the Commission Amendment No. 1 to the proposed rule change. FINRA is filing this Amendment No. 2, which replaces and supersedes

the NASD's Certificate of Incorporation to reflect its name change to Financial Industry Regulatory Authority, Inc., or FINRA, in connection with the consolidation of the member firm regulatory functions of NASD and NYSE Regulation, Inc. See Securities Exchange Act Release No. 56146 (July 26, 2007), 72 FR 42190 (August 1, 2007) (SR-NASD-2007-053).

⁴ FINRA filed the original proposed rule change on June 27, 2007. FINRA filed Amendment No. 1 to the proposed rule change on May 20, 2008. Amendment No. 2 supersedes and replaces Amendment No. 1.

⁵ See Securities Exchange Act Release No. 56297 (August 21, 2007), 72 FR 49337 (August 28, 2007) (notice of filing of SR-NASD-2007-041).

⁶ See Letter to Secretary, Commission, from Jess Haberman, Compliance Director, Fidessa Corp., dated September 5, 2007.

⁷ See Letter from Andrea Orr, FINRA, to Nancy M. Morris, Secretary, Commission, dated November 1, 2007 ("FINRA Response Letter").

Amendment No. 1 to SR-NASD-2007-041, to amend the proposed rule change to address an inconsistency in the application of the proposed minimum price improvement standards as discussed herein.

On February 26, 2007, the Commission approved SR-NASD-2005-146, which, among other things, expanded the scope of IM-2110-2⁸ to apply to over-the-counter ("OTC") equity securities and amended the minimum level of price-improvement that a member must provide to trade ahead of an unexecuted customer limit order ("price-improvement standards"). The rule changes in SR-NASD-2005-146 were initially scheduled to become effective on July 26, 2007.⁹

Following Commission approval of SR-NASD-2005-146, several firms raised concerns regarding the timing of the implementation of the proposed rule change and the application of the approved minimum price-improvement standards. In response to these concerns, FINRA filed a proposed rule change to delay the effective date of the changes in SR-NASD-2005-146 pending its review of the amended price-improvement standards.¹⁰

Subsequently, FINRA filed SR-NASD-2007-041 with the Commission to further amend the price-improvement standards in IM-2110-2 based on new tiered standards that varied according to the price of the customer limit order. In response to the publication of the proposed rule change in the **Federal Register**, the Commission received one comment letter on the proposal.¹¹

As further detailed in the FINRA Response Letter, the commenter noted an inconsistency in the application of proposed minimum price-improvement standards in low-priced securities when the customer limit order and the proprietary trade fall into different minimum price improvement tiers (e.g., a customer limit order to sell is priced

⁸ Currently, IM-2110-2 generally prohibits a member from trading for its own account in an exchange-listed security at a price that is equal to or better than an unexecuted customer limit order in that security, unless the member immediately thereafter executes the customer limit order at the price at which it traded for its own account or better.

³ On July 26, 2007, the Commission approved a proposed rule change filed by the NASD to amend

at \$1.00 and the proprietary trade is at \$.998). For example, assume the best inside market for an NMS stock is \$.996 to \$1.00 and a firm is holding customer limit orders to sell at prices of \$.998 and \$1.00. If the firm sells for its own account at \$.996, only customer limit orders to sell priced below \$.998 and from \$1.00 up to, but not including, \$1.006 would be protected due to the firm's \$.996 triggering proprietary trade. As a result, the firm would not have an obligation under IM-2110-2 to protect the more aggressively priced \$.998 customer limit order to sell (*i.e.*, the minimum price improvement standard applicable to that order is the lesser of \$.01 or one-half ($\frac{1}{2}$) of the current inside spread (\$.002 ($\frac{1}{2}$ of \$.004))), such that the \$.996 proprietary trade would only trigger customer limit orders priced less than \$.998, but would have an obligation to protect the \$1.00 customer limit order to sell (*i.e.*, the minimum price improvement standard applicable to that order is \$.01 such that a \$.996 proprietary trade would trigger customer limit orders priced at \$1.00 up to, but not including, \$1.006).

In the FINRA Response Letter, FINRA indicated that firms may choose to voluntarily protect those more aggressively priced customer limit orders that fall within the gaps, which would not be an unreasonable policy or procedure and would be consistent with the principles underlying IM-2110-2 and the duty of best execution. However, upon further reflection, FINRA believes that it is important that the more aggressively priced customer limit orders also receive protection and that any potential "gaps" be eliminated. Therefore, FINRA is now proposing to require, and codify as part of IM-2110-2, that any more aggressively priced customer limit orders also receive protection. In other words, once a customer limit order is triggered under the Rule, firms would be required to protect any more aggressively priced customer limit orders, even if those limit orders were not directly triggered by the minimum price improvement standards of IM-2110-2. FINRA is not, however, mandating any particular order handling procedures or execution priorities among protected orders. A firm may choose any reasonable methodology for the way in which it executes multiple orders triggered by the Interpretive Material, but the firm must ensure that such methodology is applied consistently and complies with applicable rules and regulations.

Using the example above, once the limit order priced at \$1.00 is activated upon the execution of the firm's trade at \$.996 (*i.e.*, it is activated because it is

within .01 of the price of the firm's trade), a firm may implement a methodology that executes all more aggressively priced customer limit orders first (*i.e.*, the limit order priced at \$.998) before executing the limit order priced at \$1.00. The proposed requirements would only apply in the limited circumstance where a firm has a limit order that is protected by IM-2110-2, but more aggressively priced customer limit orders are not protected. Therefore, in the above example, if the firm was only holding a customer limit order to sell of \$.998 (and not a customer limit order of \$1.00), the \$.998 order would not be triggered by the proposed requirements.

As noted above, FINRA proposes to implement the proposed rule change on the final implementation date of SR-NASD-2005-146, which will be 60 days after Commission approval of this filing.

2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of section 15A(b)(6) of the Act,¹² which requires, among other things, that FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. FINRA believes that the proposed rule change better reflects trading in low-priced securities and the application of IM-2110-2.

B. Self-Regulatory Organization's Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The proposed rule change was published for comment in the **Federal Register** and the SEC received one commenter letter, which was previously summarized and responded to in the FINRA Response Letter and therefore is not being included as part of this Amendment No. 2.¹³

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i)

as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as modified by Amendment No. 2, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File No. SR-NASD-2007-041 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549-1090.
- All submissions should refer to File Number SR-NASD-2007-041. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of FINRA. SECURITIES AND EXCHANGE COMMISSION

Release No. 34-58115; File No. SR-FINRA-2007-026]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Order Approving Proposed Rule Change as Modified by Amendment No. 1 Thereto for TRACE To Disseminate Additional Data Elements Relating to Each Transaction

July 7, 2008.

I. Introduction

On December 5, 2007, Financial Industry Regulatory Authority, Inc. ("FINRA") (f/k/a National Association of Securities Dealers, Inc. ("NASD"))¹ filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")² and Rule 19b-4 thereunder,³ a proposal to adopt a policy to publicly disseminate additional data elements for corporate bond transactions that are reported to the Trade Reporting and Compliance Engine ("TRACE"). These additional elements are whether a transaction is an inter-dealer transaction or a transaction with a customer and, if the latter, whether the dealer is on the buy or the sell side. On May 20, 2008, FINRA filed Amendment No. 1 to the proposed rule change. The proposal, as modified by Amendment No. 1, was published for comment in the **Federal Register** on

June 2, 2008.⁴ The Commission received one comment on the proposal.⁵ This order approves the proposed rule change.

II. Description of the Proposed Rule Change

Under the TRACE rules, a FINRA member that is party to a transaction in a TRACE-eligible security must report several types of information to the TRACE system—including whether it is buying or selling ("Buy/Sell data element") and whether its counterparty is a broker-dealer or a customer ("Dealer/Customer data element").⁶ Currently, these two data elements are not disseminated.⁷

FINRA has proposed that these two data elements now be publicly disseminated for each transaction. FINRA believes that these data elements would enhance market transparency by allowing TRACE users to better understand what a reported price actually represents. Customer transaction prices are "all-in prices" that include a mark-up/mark-down or a commission, while interdealer transaction prices are not. A customer could compare the "all-in price" of its transaction with other customer transactions. Dealer pricing could be approximated by "backing out" the mark-up, mark-down, or commission from the "all-in price" of a customer transaction.

FINRA represented that it would announce the effective date of the proposed rule change in a *Regulatory Notice* to be published no later than 90 days following any Commission approval. The effective date would be no later than 120 days following publication of that *Regulatory Notice*.

III. Summary of Comments

The Commission received one comment. The commenter strongly supported the proposal, arguing that dissemination of the additional data

elements "would improve the system tremendously."⁸

IV. Discussion and Findings

After carefully considering the proposal and the comment submitted, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association.⁹ In particular, the Commission finds that the proposed rule change is consistent with Section 15A(b)(6) of the Act,¹⁰ which requires, among other things, that FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. The Commission notes that it has previously approved the collection and real-time dissemination of similar transaction information for municipal securities.¹¹ The Commission believes that the current proposal will make the corporate debt markets more transparent by allowing market participants to make more accurate assessments of reported prices for transactions in TRACE-eligible securities.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹² that the proposed rule change (File No. SR-FINRA-2007-026) as modified by Amendment No. 1 thereto be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹³

⁶ For an interdealer transaction, FINRA receives a TRACE report from each dealer but disseminates data reflecting only the information received from the sell side. For a customer transaction, only one side of the trade has to be reported—the dealer side—and FINRA disseminates the data from the dealer's report.

⁷ The data elements that are disseminated include: The bond identifier (*i.e.*, the TRACE symbol); the price inclusive of any mark-up, mark-down, or commission; the quantity (expressed as the total par value); the yield; the time of execution; and, if the transaction were executed on a day other than when TRACE data is being disseminated, the actual date of execution.
