SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Nomans Land Island NWR in Chilmark, Massachusetts, which we started with the notice of intent (NOI) that was published in the **Federal Register** (73 FR 76376) on December 16, 2008. We prepared the draft CCP in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) (NEPA) and the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee), as amended by the National Wildlife Refuge System Improvement Act of 1997 (Act). This refuge is one of eight refuges in the Eastern Massachusetts NWR Complex.

Nomans Land Island NWR is a 628-acre roadless island located approximately 3 miles south of Martha's Vineyard, Massachusetts. It was established for the conservation and management of migratory birds. The Service first began managing a portion of the eastern side of the island in 1975 as an "overlay" refuge under a Joint Management Agreement between the U.S. Department of the Interior and the U.S. Department of the Navy (DoN), while it was still under DoN ownership. In 1998, management responsibility for the island was transferred to the Service and became Nomans Land Island NWR.

This island has a unique history, from use by Native Americans as a summer camp, to sheep grazing when the island was privately owned in the 1800s, to use as a bombing range to train DoN pilots during and after World War II. The refuge provides diverse habitats that include intertidal, freshwater wetland, grassland and shrubland habitats, and serves an important role for nesting landbirds and colonial waterbirds and as a stopover habitat for migratory birds and raptors such as the peregrine falcon.

Public access has never been allowed on the refuge due to unexploded ordnance (UXO), therefore, none of the six priority uses of the National Wildlife Refuge System (NWRS) established by Congress in the Act occur on the island. Off-site interpretation opportunities exist with potential partners such as the Town of Chilmark, the Wampanoag Tribe of Gay Head (Aquinnah) (the Tribe), and the Aquinnah Cultural Center.

Background

The CCP Process

The Act requires us to develop a CCP for each national wildlife refuge. The purpose for developing CCPs is to provide refuge managers with 15-year plans for achieving refuge purposes and the mission of the NWRS, in conformance with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify priority wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update each CCP at least every 15 years, in accordance with the Act.
