

necessary to meet the project's objectives: (1) An amendment to allow removal of existing cavity habitat in MA 10 (big game winter range). This amendment would be needed to allow removal of some snags within the cutting units. OSHA regulations require that many snags in logging units be felled to ensure the safety of forest workers. Therefore, we would anticipate the loss of some but not all standing dead timber for both safety concerns and harvest system logistics, and this would reduce "cavity habitat" associated with snags in the MA to some degree.

(2) An amendment to allow MA 12 open road density to be managed by 0.80 miles/square mile during project implementation. The amendment would be needed to suspend Facilities Standard #3, which states that open road density should be maintained by 0.75 miles/square mile. The open road density would return to 0.75 following project completion.

Estimated Dates for Filing: The Draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review by March 2006. At that time, EPA will publish a Notice of Availability of the Draft EIS in the **Federal Register**. The comment period on the Draft EIS will be a minimum of 45 days from the date of EPA publishes the Notice of Availability in the **Federal Register**. It is very important that those interested in the management of this area participate at that time.

The Final EIS is scheduled to be complete by May 2006. In the final EIS, the Forest Service will respond to comments and responses received during the comment period that pertain to the environmental consequences discussed in the Draft EIS and applicable laws, regulations, and policies considered in making a decision regarding the proposal.

Reviewer's Obligations: The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of Draft EIS's must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the Draft EIS stage but that are not raised until after completion of the Final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th cir. 1986) and

Wisconsin Heritages, Inc. v. Harris, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the Draft EIS 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider and respond to them in the Final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statements should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the Draft EIS or the merits of the alternatives formulated and discussed in the statements. Reviewers may wish to refer to the Council on Environmental Quality regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

(Authority: 40 CFR 1501.7 and 1508.22; Forest Service handbook 1909.15, Section 21.)

Responsible Official: As the Forest Supervisor of the Kootenai National Forest, 1101 U.S. Highway 2 West, Libby, MT 59923, I am the Responsible Official. As the Responsible Official, I will decide if the proposal project will be implemented. I will document the decision and reasons for the decision in the Record of Decision. That decision will be subject to Forest Service Appeal Regulations. I have delegated the responsibility for preparing the DEIS and FEIS to Julie Molzahn, District Ranger, Cabinet Ranger District, 2963 Hwy 200, Trout Creek, Montana 59874.

Dated: June 22, 2005.

Bob Castaneda,

Forest Supervisor, Kootenai National Forest.
