

Current actions: On September 13, 2022, the Board published a notice in the **Federal Register** (87 FR 56053) requesting public comment for 60 days on the extension, with revision, of the FR 3054. The Board proposed to increase the estimated respondents for the FR 3054b from 300 to 500, increase the estimated frequency for the FR 3054d from four times a year to five times a year, and increase the estimated frequency from five times a year to ten times a year and decrease the estimated number of respondents from 500 to 250 for the FR 3054e. The increase in the frequency of surveys allows the Federal Reserve System flexibility to respond to diverse needs for data by surveying groups of respondents multiple times throughout a year. Increasing the number of estimated respondents of the FR 3054b will help ensure statistical significance of the sample pool and decreasing the estimated number of respondents while increasing the frequency of the FR 3054e will facilitate more survey agility. Additionally, the FR 3054c has not changed since 2018 and no changes are anticipated during the current clearance cycle. The FR 3054c is therefore being transitioned from an ad hoc to an established collection.

The comment period for this notice expired on November 14, 2022. The Board did not receive any comments relevant to this information collection.

Board of Governors of the Federal Reserve System, December 19, 2022.

Michele Taylor Fennell,

Deputy Associate Secretary of the Board.
