

required shape using special tools. Other U.S.-sourced components of the SAYL chairs include the foam seat assembly, crossing, seat pan, spine, pelvis, mid-back foam assembly, leg base, glides, back frame, arms, and back assembly. It takes approximately 19 minutes to manufacture the TPU mesh configuration of the office chairs and 17 minutes to manufacture the upholstered configuration. Under the described assembly process, we find that the foreign components lose their individual identities and become an integral part of a new article, the SAYL task chair or the SAYL side chair, possessing a new name, character and use. Based upon the information before us, we find that the imported components that are used to manufacture the SAYL task chair and the SAYL side chair, when combined with the U.S. origin components, are substantially transformed as a result of the assembly operations performed in the U.S., and that the country of origin of the SAYL task chair and the SAYL side chair for government procurement purposes will be the U.S.

#### HOLDING:

The imported components that are used to manufacture the SAYL task chair and SAYL side chair are substantially transformed as a result of the assembly operations performed in the U.S. Therefore, we find that the country of origin of the SAYL task chair and SAYL side chair for government procurement purposes is the U.S.

Notice of this final determination will be given in the Federal Register, as required by 19 C.F.R. § 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 C.F.R. § 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 C.F.R. § 177.30, any party-at-interest may, within 30 days after publication of the Federal Register notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Bureau of Indian Affairs' ILCP purchases fractionated interests of individually owned trust or restricted fee lands and transfers those consolidated interests into Tribal ownership pursuant to the Indian Land Consolidation Act, 25 U.S.C. 2201 *et seq.* The Indian Claims Resolution Act of 2010, Public Law 111-291, makes available \$1.9 billion, the majority of which will be used by the Secretary to operate the ILCP with the purpose of addressing the problem of fractionation. The Act requires consultation with Indian Tribes to identify fractional interests within the respective jurisdictions of the Indian Tribes that the Department may want to consider purchasing.

Information and statistics regarding the issue of land fractionation will be distributed to the Federally-recognized Indian Tribes prior to the consultations. The information will also be made available to attendees on the day of each consultation. The Cobell Settlement must be approved by the Federal District Court, and a fairness hearing before the Court is scheduled for June 20, 2011, in Washington, DC.

#### Draft Oil and Gas Management Plan/ Environmental Impact Statement for Big South Fork National River and Recreation Area and Obed Wild and Scenic River

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice of Availability of a Draft Oil and Gas Management Plan/ Environmental Impact Statement for Big South Fork National River and

Recreation Area and Obed Wild and Scenic River.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), and the Council on Environmental Quality regulations (40 CFR part 1500-1508), the National Park Service (NPS), Department of the Interior, announces the availability of the draft oil and gas management plan/ environmental impact statement (OGMP/DEIS) for the proposed Big South Fork National River and Recreation Area (BISO) and Obed Wild and Scenic River (OBRI). This OGMP/ DEIS will guide the various actions that could be implemented for current and

future management of oil and gas operations in BISO and OBRI. It analyzes alternative approaches, defines a strategy, and provides guidance for activities taken by owners and operators of private oil and gas rights to ensure these activities are conducted in a manner that protects park resources and values, visitor use and experience, and human health and safety.

**DATES:** In the summer of 2006, the NPS conducted public scoping meetings in Tennessee and Kentucky to determine the scope of issues to be addressed in the plan and EIS and to identify significant issues related to the management of oil and gas operations at BISO and OBRI. The NPS notice of intent to prepare an environmental impact statement for an oil and gas management plan for BISO and OBRI was published in the **Federal Register** on May 31, 2006 (71 FR 30955). The NPS will accept comments from the public on the draft OGMP/EIS for 60 days following the publishing of the notice of availability in the **Federal Register** by the U.S. Environmental Protection Agency. Public meetings will be held during the 60-day review period, with the specific dates and locations to be announced in local and regional media sources of record and on the Park's Web site, <http://parkplanning.nps.gov/BISO>. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials of organizations or businesses, available for public inspection in their entirety.

**ADDRESSES:** Electronic copies of the draft OGMP/DEIS will be available online at <http://parkplanning.nps.gov/BISO>. To request a copy, contact Superintendent, BISO at 4564 Leatherwood Road, Oneida, Tennessee 37841 or by telephone at (423) 569-9778 or Unit Manager, Obed Wild and Scenic River, 208 North Maiden St., Wartburg, Tennessee 37887 or by telephone at (423) 346-6294. While supplies last, the document can also be picked up in person at the above addresses.

**SUPPLEMENTARY INFORMATION:** Three alternatives are identified and potential

impacts are analyzed in the OGMP/DEIS which include the no-action alternative, alternative A, and two action alternatives, including the NPS preferred alternative. Alternative A reflects current management. Alternative B would comprehensively pursue enforcement of the 9B regulations and plans of operations from current operators, based on priorities set by certain site-specific conditions. The NPS preferred alternative, alternative C, would implement the same type of comprehensive management as described in alternative B, but there would be an additional designation of "Special Management Areas" to provide protection for areas where park resources and values are particularly susceptible to adverse impacts from oil and gas development.

**Authority:** The authority for publishing this notice is contained in 40 CFR 1506.6.

**FOR FURTHER INFORMATION CONTACT:** Michael Edwards, Project Manager, Environmental Quality Division, National Park Service, Academy Place, P.O. Box 25287, Denver, Colorado 80225, 303-969-2694.

The responsible official for this draft EIS is the Regional Director, Southeast Region, National Park Service, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303.

Dated: June 8, 2011.
