

to be used in determining the expected early retirement ages.

Table I in appendix D (Selection of Retirement Rate Category) is used to determine whether a participant has a low, medium, or high probability of retiring early. The determination is based on the year a participant would reach “unreduced retirement age” (*i.e.*, the earlier of the normal retirement age or the age at which an unreduced benefit is first payable) and the participant’s monthly benefit at unreduced retirement age. The table applies only to plans with valuation dates in the current year and is updated annually by the PBGC to reflect changes in the cost of living, etc.

Tables II–A, II–B, and II–C (Expected Retirement Ages for Individuals in the Low, Medium, and High Categories respectively) are used to determine the expected retirement age after the probability of early retirement has been determined using Table I. These tables establish, by probability category, the expected retirement age based on both the earliest age a participant could retire under the plan and the unreduced retirement age. This expected retirement

age is used to compute the value of the early retirement benefit and, thus, the total value of benefits under the plan.

This document amends appendix D to replace Table I–13 with Table I–14 in order to provide an updated correlation, appropriate for calendar year 2014, between the amount of a participant’s benefit and the probability that the participant will elect early retirement. Table I–14 will be used to value benefits in plans with valuation dates during calendar year 2014.

PBGC has determined that notice of, and public comment on, this rule are impracticable and contrary to the public interest. Plan administrators need to be able to estimate accurately the value of plan benefits as early as possible before initiating the termination process. For that purpose, if a plan has a valuation date in 2014, the plan administrator needs the updated table being promulgated in this rule. Accordingly, the public interest is best served by issuing this table expeditiously, without an opportunity for notice and comment, to allow as much time as possible to estimate the value of plan benefits with

the proper table for plans with valuation dates in early 2014.

PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this regulation, the Regulatory Flexibility Act of 1980 does not apply (5 U.S.C. 601(2)).

Drawbridge Operation Regulation; Passaic River, Kearney and Newark, NJ

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is temporarily modifying the operating schedule that governs the operation of the Route 1 & 9 (Lincoln Highway) Bridge across the Passaic River, mile 1.8, between Kearny and Newark, New Jersey. The bridge owner, New Jersey Department of Transportation, submitted a request to restrict bridge openings during the morning and afternoon rush hour periods to alleviate traffic congestion resulting from area roadway closures. It is expected that this change to the regulations would provide relief to vehicular traffic while continuing to meet the reasonable needs of navigation.

DATES: This temporary final rule is effective from March 1, 2014 through March 1, 2016.

A. Regulatory History and Information

On August 28, 2013, we published a notice of proposed rulemaking (NPRM) entitled Drawbridge Operation Regulations Passaic River in the **Federal Register** (78 FR 53107). We received no comments on the proposed rule. No public meeting was requested, and none was held.

B. Basis and Purpose

The Route 1 & 9 (Lincoln Highway) Bridge at mile 1.8, across the Passaic River between Kearny and Newark, New Jersey, has a vertical clearance of 40 feet at mean high water and 45 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.739(b).

The waterway users are predominantly recreational vessels and commercial vessels.

The owner of the bridge, New Jersey Department of Transportation, submitted a request to the Coast Guard to temporarily change the drawbridge operating regulations.

The purpose of this temporary final rule is to help provide relief to help reduce vehicular traffic congestion during the morning and afternoon vehicular rush hour periods due to local construction detours. Additional vehicular traffic will be detoured across the Route 1 & 9 (Lincoln Highway) Bridges for two years from the adjacent Pulaski Skyway Bridge which will be under construction to replace its deck commencing on March 1, 2014 and continuing through March 1, 2016.

The existing regulations presently require the bridge to open on signal at all times provided a four hour advance notice is given.

Under this temporary final rule the draw shall open on signal provided a four hour advance notice is given; except that, the draw need not open for the passage of vessel traffic between 6 a.m. and 10 a.m. and 2 p.m. and 6 p.m., Monday through Friday, except holidays.

Tide dependent deep draft vessels may request bridge openings during the two rush hour closed periods provided at least a twelve hour advance notice is given.

C. Discussion of Comments, Changes and the Final Rule

The Coast Guard received no comments in response to the notice of proposed rulemaking. As a result, no changes have been made to this final rule.
