k. Deadline for filing responsive documents: Due to the small size and location of the proposed project in a closed system, as well as the resource agency consultation letters filed with the application, the 60-day timeframe specified in 18 CFR 4.43(b) for filing all comments, motions to intervene, protests, recommendations, terms and conditions, and prescriptions is shortened to October 1, 2010.

All reply comments filed in response to comments submitted by any resource agency, Indian tribe, or person, must be filed with the Commission within 45 days from the issuance date of this notice.

Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.gov/docs-filing/efiling.asp>. You must include your name and contact information at the end of your comments. The Commission strongly encourages electronic filings.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervenor

files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. Description of Project: The Lower South Fork LLC requests Commission approval for exemption for a small conduit hydroelectric facility. This proposal consists of adding a Pelton style 470 kilowatt hydraulic turbine/generator into an existing 32 inch PVC pipeline used to carry water from one ditch to another within an irrigation system. The primary purpose of the conduit is agricultural use. The hydraulic capacity of the generator will be 27.5 cubic feet per second and the generator will have an estimated average annual generation of 1,800,000 kWh.
