SUPPLEMENTARY INFORMATION:

Background

The total estimated cost of the ELIPS project is \$33,000,000, of which \$21,400,000 is the Federal cost-share of the ARRA funded grant. The ductile iron flanges are not available in the United States and are necessary for the construction of the ELIPS project. The SDBOC engineers conducted market research for the domestic ductile iron flange production industry and determined there is currently no domestic availability for ductile iron flanges for use with HDPE and PVC pipe.

Congress has enacted a Buy American provision which requires manufactured goods permanently incorporated into a project funded with ARRA funds to be produced in the United States. The application of Buy American is triggered by the obligation of Federal ARRA funds to a project. Once ARRA funds are obligated to a project, then all iron, steel, and manufactured goods incorporated into the project must be produced in the United States. The specific statutory requirement reads as follows:

Section 1605 of the Recovery Act prohibits the use of recovery funds for a project for the construction, alteration, maintenance, or public work unless all of the iron, steel, and manufactured goods are produced in the United States.

2 CFR 176.80

Under 2 CFR 176.80(a), the head of the Federal department or agency may waive the Buy American requirements for specific products on an ARRA funded construction project when Buy American is inconsistent with the public interest; such materials and products are not produced in the United States in sufficient and reasonably available quantities and of satisfactory quality; or inclusion of domestic material will increase the cost of the overall project contract by more than 25 percent.

The waiver process is initiated by a requesting organization when it believes that a waiver is warranted pursuant to any of the three waiver provisions under

2 CFR 176.80(a). The SDBOC submitted a Buy American waiver request based on the waiver provision under 2 CFR 176.80(a)(1)—Nonavailability. The project requirements specified the use of ductile iron flanges that were determined through industry research conducted by SDBOC to not be domestically available. Based on the confirmation that these ductile iron flanges used with HDPE pipe are not currently available, Reclamation approved the Buy American waiver request.

Reclamation's publication of its Buy American decision is required pursuant to the Buy American Act, 2 CFR 176.80(b)(2). The specific statutory requirement reads as follows:

The head of the Federal department or agency shall publish a notice in the **Federal Register** within two weeks after the determination is made, unless the item has been already determined to be domestically non-available. A list of items that are not domestically available is at 48 CFR 25.104(a). The **Federal Register** notice or information from the notice may be posted by OMB to Recovery.gov. The notice shall include—(i) The title "Buy American Exception under the American Recovery and Reinvestment Act of 2009"; (ii) The dollar value and brief description of the project; and (iii) A detailed written justification as to why the restriction is being waived.

Upon publication of this **Federal Register** notice, Reclamation is notifying the public of the decision to approve the Buy American waiver requested by the SDBOC to purchase foreign ductile iron flanges as part of the ARRA grant for the SDBOC ELIPS project located in Sunnyside, Washington.

Mary Messer (202–205–3193), Office of Investigations, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. The public record for this review may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On November 16, 1994, the Department of Commerce (“Commerce”) issued an antidumping duty order on imports of fresh garlic from China (59 FR 59209). Following first five-year reviews by Commerce and the Commission, effective March 13, 2001, Commerce issued a continuation of the antidumping duty order on imports of fresh garlic from China (66 FR 14544). Following second five-year reviews by Commerce and the Commission, effective October 19, 2006, Commerce issued a continuation of the antidumping duty order on imports of fresh garlic from China (71 FR 61708). The Commission is now conducting a third review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the

scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination, the Commission found three separate *Domestic Like Products* consisting of fresh garlic, dehydrated garlic, and seed garlic corresponding with the broader scope of the original investigation. However, the Commission found that the domestic industries producing garlic for dehydration and seed garlic were neither materially injured nor threatened with material injury by reason of the subject imports from China. One Commissioner defined the *Domestic Like Product* differently in the original determination. In its full first five-year review determination, the Commission defined the *Domestic Like Product* as all fresh garlic. Consistent with its *Domestic Like Product* definition in the original investigation and first five-year review, the Commission found in its expedited second five-year review determination a single *Domestic Like Product* consisting of all fresh garlic, coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination, the Commission found three *Domestic Industries* consisting of the domestic producers of fresh garlic, the domestic producers of dehydrated garlic, and the domestic producers of seed garlic to coincide with the three *Domestic Like Products*. The Commission also found that crop tenders were not members of the *Domestic Industry*. One Commissioner defined the *Domestic Industry* differently in the original determination. In its full first five-year review determination, consistent with Commerce's narrower scope and the Commission's *Domestic Like Product* definition of a single *Domestic Like Product* consisting of all fresh garlic, the Commission found a single *Domestic Industry* consisting of all producers of fresh garlic. In its expedited second five-year review determination, the Commission once again found a single *Domestic Industry* consisting of all domestic producers of fresh garlic.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in

importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the review and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics official has advised that a five-year review is not considered the “same particular matter” as the corresponding underlying original investigation for purposes of 18 U.S.C. § 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR § 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics. Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR § 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202–205–3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. § 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those

parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is October 3, 2011. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is November 10, 2011. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission's rules, as amended, 67 FR 68036 (November 8, 2002). Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative

forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.
